

BANDITS' LOOT IN NEW YORK.

was made by A. M. Becker, lawyer for the Globe and Rutgers Insurance Company, which wrote \$20,000 insurance on the stolen consignment of the Sussex Print Company of Newtown, and by H. P. Cunningham of Farjeon, Bullin & Co., brokers, who arranged for the shipment. They declared that the risk had become so great because of the increase in robberies during the last six months that many companies had declined

Mr. Cunningham said the losses suffered by his firm within the past month amounted to more than \$600,000, and Mr. Becker enumerated the following thefts of goods insured

The following thefts of goods insured by his concern in the same period:
Wallis Motor Express, \$41,000;
Andrews Mills, \$26,000; J. R. Keim & Co., \$15,000; Camden Curtain and Embroider Company, \$5000.

Mr. Becker asserted that groups of men in this city and Paterson, N. J., carried on a regular business in the handling of stolen merchandise, and in some cases even had es-

established curb markets, for the distribution of the goods. He said evidence had been gathered that the "markets" fluctuated whenever a robbery occurred and that vendors appeared to have knowledge of the location of a "big swing" could be delivered.

HUNT DOWN SLAYERS.

While local insurance interests were preparing their private campaigns to have the police and firemen, agents and fences, the privilege of New York, New Jersey and Pennsylvania, and united in an effort to hunt down the men who had run off with the truck of the Sumner Print Company, after killing Charles Costa, a Brooklyn resident, who, on a motorcycle, had been expected to come up to a scene of hold-up.

One of the six bandits was seen in the neighborhood between Astoria and Bethlehem, Pa. last night.

about the time the officers of Sussex county learned of the crime. The binding and gagging of Charles Maines, driver of the truck, and Claus Resch, his helper, in the mire of Cats Swamp permitted the thieves to

At a sixty-mile start, Malhes and Resch are still recovering from their experience of being lashed to trees and threatened with the fate of Costa.

Armed possees today continued a search of the country around Allentown and watched all roads. Allentown is a considerable silk center and one theory is that the robbers had made arrangements in advance to dispose of the consignment at that place. According to Malhes and Resch the robbers were foreigners.

They were able to furnish good descriptions of the men, as the bandits removed their black handkerchief masks while binding and gagging the victims.

In exposing the activities of truck

"There is no doubt that there exist well-organized gangs of thieves who work in conjunction with those who knowingly distribute stolen property. The robbers appear to have established avenues of information as to the movement of valuable shipments. They always select an appropriate time and place and usually make their attacks from automobiles.

"I would say that a conservative

estimate of the value of merchandise and trucks stolen during the past year within 200 miles of New York would be \$50,000,000.

"In New York it is not a rare thing for a truckload of merchandise worth \$50,000 to disappear at any

completely as if it had been dumped into the river. We have learned that receivers of stolen merchandise here have connections in all parts of the country, including Boston, Cleveland, Detroit, Norfolk and Augusta, Ga. They are well supplied with money for bail purposes, if an arrest is made, and often pool their interests for a purchase when a particularly big haul is made. The robbery of Tuesday attracted attention because it involved a murder. Perhaps this

will result in a more determined effort to break up the traffic, which has become pretty much of a joke in spite of the tremendous monetary losses."

British Warning to Nationalists Threat of War.

[BY CABLE AND ASSOCIATED PRESS]
CONSTANTINOPLE, June 15.—
The British have warned the Turkish Nationalists that any attempt to take Constantinople will mean war.

The purpose of sending a British brigade from Malta to relieve the Greeks at Ismid is to frustrate any such Nationalist attempt to occupy Constantinople.

BANKER REFUSES ESTATE'S FEE.

Turns Down \$50,000 Offered in Estate Because of Friendship.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, June 15.

A statement that Alexander Meyer, a Los Angeles banker, refused to accept an offer of \$50,000 for administering the estate of the late Ludwig Sobel, a real estate dealer of the same city, was filed today in the archives of Superior Judge

(BY A. P. MORTY WIRE.)
SAN FRANCISCO, June 15.
A statement that Alexander Meyer, a Los Angeles banker, refused to accept a fee of \$50,000 for administering the estate of the late Ludwig Zobel, real estate dealer of the same city, was filed today in the archives of Superior Judge Thomas F. Graham's court. Meyer told the court that he had added \$400,000 to the assets of the estate, which was valued at \$300,000 when Zobel died in 1903. The court then

Meyer, a Los Angeles banker, refused to accept a fee of \$50,000 for administering the estate of the late Ludwig Zobel, a real estate dealer of the same city, who died today in the archives of Superior Judge Thomas F. Graham's court. Meyer told the court that he had added \$400,000 to the assets of the estate, which was valued at \$300,000 when Zobel died in 1903. The court then offered the fee, but Meyer declined it, giving as his reason a close friendship for Zobel's widow, Mrs. Marie Bailey, and her son, Myron D. Zobel of Hollywood.

"OMAR" ON SCREEN.
GUY BATES POST TO RE-CREATE STAGE ROLE.

By Grace Kingsley.
Speaking of costume pictures, what could be more fascinating as a subject than Richard Walton Tully's "Omar the Tent Maker"? Especially with Guy Bates Post in the leading role—a part in which he is famous on the stage. Then when we add that James Young, responsible for "The Devil," and who has just made Kipling's "With Out Benefit of Clergy," is to direct it seems as though there could be no doubt of the feature's possibilities.

Guy Bates Post arrived in town a day or two ago. Mr. Tully comes today, and this afternoon a conference is to be held by Post, Tully and Young as regards the scenario for "Omar." Work is to commence within a few days.

Special sets are now being erected at Branton studios, where the picture will be made. It is to have an elaborate production. It would appear that there are to be rival productions made with the joyous Omar as hero, inasmuch as Ferdinand Finney Earle is also to make a picture of Omar Khayyam, with Frederick Wards in the leading role.

As to Guy Bates Post's activities in the West, it appears that he will be a busy man, as it is possible the Community Theater people of Pasadena will persuade him to appear in outdoor productions of a classic, perhaps the Greek drama, "Oedipus Rex."

Promise Good Films.
That enterprising organization, Famous Players-Lasky, is to put out the best stock of pictures of the entire career, if one is to judge by the literary quality of the plays and stories.

Announcement made yesterday was to the effect that the company has just purchased two plays and a novel which it is intended to adapt. The plays are "The Shepherd," which has had a successful run on Broadway, with Grant Mitchell as star, and "A Prince of the Desert," by M. Hull. Wallace Reid will appear in "The Shepherd," and Thomas Meighan has been booked for "A Prince of the Desert." "The Shepherd" will serve George Melford as his next production.

Following the announcement that Jack Holt is to be made a star, it now appears that Agnes Ayres also is to receive that distinction.

Elliott Dexter has finished in "Peter Ibbetson" and has left George Fitzmaurice's summer residence on Long Island Sound to spend a vacation in Cleveland, O.

It's a much-married group that appear at the Orpheum this week, and the mail carrier on the beat is finding a load much lighter than usual, due to lack of match notes. Just two poor goofies on the bill are married. They are Lew Dockstader, "booming friend" of John Barrymore, and David Sapirstein, who is booked to his musical act. All the rest rot in double harness.

Irene Franklin is married to Burt Green, and the two are together always. The bride is a native of Portland, Maine. She is in New York, but she will be there as soon as her engagement to Burt Green is over. Her husband is a well-known actor. Longdon's wife is the blonde in his act, and Emma Lindsay, with Susan, the trained pony, is married to her stage manager.

Baker Announces Cast.

George D. Baker has assembled a notable cast for "Garments of Truth," his second production to be filmed by S. L. Pictures at Metro. Heading the players is Gareth Hughes, who will star in this first feature. The story is "The Hunch," Mr. Baker's first production of the series.

Bibel Grandin is scheduled to play opposite Mr. Hughes. Other in the cast are John Stepping, Graham Puttie, Margaret McWade, Walter Perry, and many friends of Harry Lorraine and Frances Raymond.

Little Theater Announces:

The Little Theater is to reopen next Monday night with a new play by Victor Mapes, entitled "The Kangaroo." In the cast are a number of new players, including Russell Simpson and Neely Edwards. Olga Gray Zacek was formerly picture actress, but of late has devoted herself to the stage.

Thomas Meighan, who has traveled across the United States during the past twelve months, is now in Los Angeles on his eighth transcontinental trip about July 1.

This information was received yesterday by Sid Grauman from the well-known leading man. Oh, yes, and Thomas Meighan's next picture, "White and Unmarried," plays next week at Grauman's Theater.

It Excites You to Know It—Cullen Landis, Goldenwyn juvenile, is spending his time between pictures fishing and looking over all properties. He hopes to be able to earn enough money playing in pictures to buy more oil wells soon.

Ethel Clayton, star of "Sham," at Grauman's, is perplexed for she has just received a cut-glass champagne set from one of her French admirers, whom she met on her recent trip to Europe. She doesn't know whether to insult it by using it for water, or give it away, or hunt up a bootlegger.

Irene Franklin Will Remain.
Burt Green says that when he came here he had no particular idea of three-sheeting the climate, but now he's just got to it on his orders, by remaining here for a few weeks, with his wife, Irene Franklin. Orpheum star, and so long as the pair are here, they don't think there's a bit of harm in taking a look at and being looked at by the movie studios. Not that their intentions are serious now, but who can tell, a little later on.

Miss Franklin is to be one of the stars of the Greenwich Village Follies in New York next season. Rehearsals begin in August.

Grace Darmond to Travel.
Grace Darmond, featured in the new ticket picture, "Handle With Care," contemplates a tour of Canada to make personal appearances at the motion picture theaters. Her

Three Graces of Musical Show.

Appearing in "Irene."
Erica MacKay, Beatrice Burrows and Margaret Pidgeon (left to right), who are playing with smiles and songs at the Mason Opera House.

four will extend from coast to coast and as far north as Seattle. The star's mother will accompany her on the visit to Toronto, the eastern provinces and thence westward. Winnipeg is to be the final destination.

Chester Studio Busy.

Formal christening of the new Chester studio on Gower street was accomplished yesterday by Snooky, the "Humane," star of Chester comedies. First the cheerful chimp smashed a bottle of milk on a corner of the administration building, then he assisted in raising a flag and then presented C. L. Chester with a huge key on the supposition that it granted him the freedom of the zone.

Harry Williams opened the studio as a workshop a few days ago by taking the initial shot of "Snooky's Twin Troubles," first of the Chester Comedies that will be distributed by Pederated Film Exchange of America. Vin Moore started somewhat later, with the first Chester Junior Comedy, in the first Chester Junior Comedy, in the one-reel weekly series also to be dispensed by Pederated. Harry Hagenah is directing a second one-reel comedy.

The stage in the new plant is one of the largest in Hollywood, 100x100 feet. The roof is supported by massive trusses, so there isn't a post anywhere to fall over or shoot into.

Bothwell Browne With Woods.

"Word from New York tells that Bothwell Browne is preparing a big review of the August 1st, 1936, next season. Browne will be one of the major stars.

Polio Will Globe-Trot.

Eddie Polo, the Universal star, is sending his wife and daughter on a little jaunt around the world. Mrs. Polo is widely known as Pearl Polo, actress, while their daughter, Malvina, has just achieved an enviable success in Eric von Stroheim's feature, "Foolish Wives."

Polo is sending them around the world to round out Miss Malvina's education and to allow Mrs. Polo to round up many friendships on the European continent. Leaving Los Angeles today, they will sail June 24, for the August 1st. The trip will take them through Europe and then to Turkey, Egypt and Africa.

Wife at Hotel With Other Man, Spouse Charges.

George Durbin told Judge Walton J. Wood yesterday that he surprised his wife, Grace M. Durbin, at a downtown hotel in the company of another man.

"What did you say when you found your wife with this man?" asked the court.

"I was somewhat shocked," was the reply. "I said 'Good morning, my dear.'"

Mrs. Durbin filed the suit for divorce but she did not expect to prosecute it. The court granted Mr. Durbin a decree on his cross-complaint.

ARRANGE COURTS.

Judges Decide to Use Four Departments for Trying Criminal Cases.

The Superior Court judges at their meeting decided that after the vacation period, ending next September 11, Department 15, now a Criminal Court, will resume the trial of civil cases. Department 19 will remain permanently a Criminal Court.

The appointment of three new judges which may be expected soon will create three new courts. The law creating them does not go into effect until the last of July, and new judges will not take their seats until August 1, when emergency cases will be assigned to them. After the vacation period they will take up the regular calendar.

TELLS L.W.W. ACTIONS.

Depredations of the L.W.W. in 1917, in and near Modesto and Berkeley, were told yesterday by Robert Courts, principal witness of the prosecution in the trial of Emil Meese, now on trial in Judge Walton J. Wood's court on a charge of criminal syndicalism. The case will be resumed today.

RADIOS.

GIVES ORDERS FOR SIX.

KANE BACKS MORE FILMS;
LEAH BAIRD MAY STAR.

By Edwin Schallert.

Not everyone is guarding his shekels these days and waiting for better times in the movies. New production activities are, perhaps, more frequent than they were, but they happen occasionally just the same.

For instance, wire advice from the East tell that Arthur Beck has taken leave of New York for the Coast, bringing a contract with Arthur Kane, backer of Charles Ray and other stars, for the making of a series of six special productions here. The contract calls for a description in not more than 250 words of the most thrilling or inspiring scene of the picture and the reason why the individual feels that scene to be worthy of selection. It is stated. The manuscripts are to be sent to the picture editor at the Kinema, and of the total submitted the fifty best answers will be awarded a prize, according to an announcement. The contest will run for five days.

Willis's Independent.

Irvin V. Willis's first independent production, "Down Home," has been booked for showing at Miller's Theater, beginning Sunday. The cast includes Leatrice Joy, Edward Hearn, William Robert Daly and Frank Broadway.

Paramount Exploits.

"The Best Show in Town Week" is the title given the special seven-day period starting Sunday, and sponsored by the Paramount picture organization. It is said that many of the leading theaters have arranged to show the latest Paramount pictures available during the week, and that special programs and built by exhibitors in all sections of the country.

Invites Them to Picture.

Harry "Snub" Pollard, the comedian, gave a party at the California Theater for a group of his friends last evening, inviting his director, Charles Parrott. This party is in honor of the fact that Pollard's newest comedy is having its first showing at the California as a special attraction with "Snowblind."

Gladys Walton Returns.

Gladys Walton has just returned from a brief vacation trip to the border. The star is scheduled soon to begin work on "The Girl Who Knew All About Men." She finished "Christine of the Young Heart" just before her departure.

"Tempest" Dress Rehearsal.

A dress rehearsal is to be called in the Hollywood Bowl tomorrow evening, prior to the return outdoor performance, Saturday night, of Shakespeare's "Tempest." The same cast without exception is to be seen. It is announced. The setting is now in course of construction. It represents a wild spot in the Bermuda endowed with nature's charms. Huge rocks, trees, brush, shrubs, ferns, etc., form the various essentials of the setting.

Through with Conference.

James L. Lasky and Cecil De Mille are now on their way back to California. Mr. De Mille's trip having turned out to be of just as "flying" as anticipated.

Incidentally, the Lasky officials were pretty busy at the conference, because beside making a couple of new stars, Agnes Ayres and Jack Holt, Mr. Lasky has announced an important change in the executive force of the studios abroad. This is the appointment of Al Kaufman as general manager of all activities in England and on the European continent. The appointment marks the return of Mr. Kaufman to Paramount.

George Fitzmaurice, the director, is also to go to London following the completion of "Peter Ibbetson," and Mr. Lasky has also announced that several American stars will follow.

Robert T. Kane is also to succeed Walter F. Wagner as manager of the production department for Famous Players-Lasky.

Robert MacAlarney will continue as production manager in the London studio.

"Through reorganization," Mr. Lasky stated just before leaving New York, "I expect to effect a big cut in the cost of production at the Lasky studios. The New York studio will remain closed throughout the summer. He also stated that every possible economy would have to be practiced in the future in production of pictures.

Cardio this Summer.

Leo Carillo, popularly known here for his work in "Lombardi, Ltd.," and other Morisco plays, is headed westward on the Orpheum house. He'll be at the local house about the middle of summer.

"Irene" Stays Extra Day.

"Irene" is so popular here that arrangements have been made for a special Sunday night performance at the Mason.

Lloyd Says No.

Harold Lloyd has said "No!" on the subject of goats. He had enough of them with the one whose acquaintance he made in filming "Among Those Present," now showing at Grauman's theater. He has

sent an ultimatum to Sam Taylor, who with Hal E. Roach, composed the script, in poetic form, as follows:

"Dear Taylor, will you kindly note, Don't write me scripts that have a goat. I can endure a snake or lion. But not again a goat for mine!"

Minstrel? Well, He's Doubtful.
Lew Dockstader has been considering the gentle art of minstrelsy as a variation from vaudeville touring. The reason being that he has lately received an offer to star with a blackface organization.

Lew is pretty fond of vaudeville but he is still keeping the offer in mind.

Faversham in "Justice."

The star of the screen version of John Galsworthy's "Justice" is to be William Faversham. Announcement of this fact was made by New York yesterday by Myron Selznick. Production is expected to start in three or four weeks, and a representative has already gone abroad to make some drawings of sets, particularly courtroom scenes to be used in the picture.

"Dream Street" Near.

D. W. Griffith's latest production will dash across the screen next Wednesday. This is the adaptation of two "Limelight Nights" stories, titled "Dream Street." Carol Dempster, formerly of this city, is one of the stars in the film, while Walter Mack, whom Mr. Griffith recently elevated to stardom, is to play the other principal. Edward Paul, formerly with the stock company at the Majestic, is said to do a remarkable portrayal of a Chinaman.

Californians Returning.

Adding to the celebration of a glorious Fourth, the California Opera Company has made announcement of its return to the Mason on that evening, playing Victor Herbert's three-act comic opera, "The Fortune Teller." The cast is to include Roy Atwell, Irene Pavlovka and Basil Ruysdael as the headliners.

The Herbert work is very popular, having been sung with brilliant success some seasons ago by the Alice Nulien Opera Company. One of the most favored numbers is the Gypsy Love Song.

Contest at Kinema.

Announcement is made of a competition for artists' proofs taken from original paintings by M. Marriage at the Kinema Theater. The contest calls for a description in not more than 250 words of the most thrilling or inspiring scene of the picture and the reason why the individual feels that scene to be worthy of selection. It is stated. The manuscripts are to be sent to the picture editor at the Kinema, and of the total submitted the fifty best answers will be awarded a prize, according to an announcement. The contest will run for five days.

FARMERS OFFER AID TO UNIONS.

National Council to Co-operate with Labor Federation.

Seattle Delegates Want Six-Hour Working Day.

Old Cry Against Injunctions Also Brought Out.

(BY A. P. NIGHT WIRE.)

DENVER, June 15.—Co-operation of the farmers with the organized industrial workers of the country to "achieve the ideals of economic, industrial and agricultural, as well as political freedom," was pledged by the new Farmers' National Council in a telegram received today at the annual convention of the American Federation of Labor.

The message, received from the headquarters of the council in Washington, said that "only by uniting upon a common basis of fundamental justice can we achieve real freedom for all workers."

WELCOMES INDORSEMENT.
The Farmers' National Council welcomes the endorsement of its program for active working-together of farmer and labor forces," said the telegram. To achieve the ideals of economic, industrial and agricultural, as well as political freedom, for which our country was founded.

"We have been working to this end and we will be glad to join hands with you to stop the present control of our railroads, natural resources, shipping and banking, and credit system in the interest of a little clique of investment bankers and selfish un-American citizens of great wealth, and to secure an honest tax system and control of the meat packers."

FALSE SPOKESMEN.
"We warn you against false spokesmen of farmer organizations who denounce the getting together of farmers and other workers." The Central Labor Council of Seattle, in a resolution today, called upon the federation to "use all of its resources to carry into effect plans whereby a maximum six-hour day shall be established, and all overtime abolished in industry."

This action, it was stated, would relieve the "great menace of unemployment."

MILWAUKEE, June 15.—Capt. and Mrs. Henry Anson Barber, West Point, N. Y., who spent the last week with Mrs. George W. Wahl and family, Lake Drive, are motoring to Camp Dix, N. J., where Capt. Barber is stationed.

Mr. and Mrs. Thomas E. Camp and Fred Rickerson have gone to New Canaan, Ct., to spend the summer. They will be joined by Dr. and Mrs. William Kennedy and daughter of New York. Mrs. Kennedy was formerly Miss Janet Camp.

Mrs. Walter L. Haskell and children, Kenilworth Place, are spending the summer at Atlantic City. Mrs. B. B. Hopkins and daughter, Miss Addie Hopkins, Farwell avenue, are occupying their country home on North Lake.

Mr. and Mrs. Walter V. Johnson, Shepard avenue, are occupying their country home at Lake Baulah.

MINNEAPOLIS, June 15.—Miss Helen Biebee has returned home from a two month trip through the South and East. Miss Biebee and her mother spent several weeks at Virginia Hot Springs and in New York, and later she visited in Cleveland.

Mrs. Robert F. Lewis, who has spent the last month in Lockport, N. Y., visiting relatives, has just been joined by her husband. From Lockport, Mr. and Mrs. Lewis will go to New York and Atlantic City, returning home by way of the Great Lakes in about two weeks.

DENVER, June 15.—Mrs. D. C. Potter has as her house guests her mother, Mrs. Crooks; her sister, Mrs. George Haines; and nephew, Robert Crooks, of Pasadena, Cal.

Mr. and Mrs. George E. Smith and Miss Helen M. Smith are registered at the Hotel Guenwald, New Orleans. They expect to leave for New York on the Concho, returning to Denver about the last of June.

Mrs. G. W. Brown and daughter, Mrs. Smith and daughter Melva left June 13 for a three months' trip through California.

Miss Thelma Fisher departed for California, where she will visit for several months.

OMAHA, June 15.—Mr. and Mrs. Frank Welsh are leaving about the middle of July for Southern California, where they plan to reside in the future. Mr. and Mrs. Welsh and baby daughter will spend the remainder of the summer in Santa Monica, and in the fall will take a house in or near Los Angeles.

Mr. and Mrs. Arthur E. Rogers will leave soon for an eastern trip that will include a stop in Cleveland, a visit in New York with Mrs. Rogers.

LISSNER IS AT CAPITAL TODAY.

Angeleno Last Member of New Board to Arrive.

Is to Take Oath of Office About Noon.

President Wants Many Hard Knots Untied.

(EXCLUSIVE DISPATCH.)

WASHINGTON, June 13.—With the arrival of Meyer Lissner of Los Angeles tomorrow morning, the last member of the Shipping Board will be on the job and ready for complete reorganization. Mr. Lissner is to take the oath about noon and will go into conference with Chairman Lasker and the other members to discuss policies and plans for immediate clearing away of matters which have been pending for months. Friday all the members of the new board will meet President Harding in a prolonged conference, at which time the policies of the board will be outlined. The President will tell his new appointees what he thinks can be accomplished and how best it can be brought about. A formal statement will be made relative to the decisions reached immediately after the conference is over.

PRESIDENT'S HOPES

Some of the things which will be emphasized by the President will be: Greater efficiency and the elimination of deadwood personnel.

New heads in the operating, construction and repair divisions and other crucial positions.

Immediate inventory of all earning assets of the board.

Charging off cost down to present market prices of vessels, yards and equipment.

Allocating the amount charged off to the war expenses of the United States.

Placing the new figures as the basis on which the board shall develop trade and operate vessels until they are disposed of to citizens of the United States to be operated under the American flag.

Immediate realization of plan to dispose of the ships at market prices on twenty-five to thirty percent of their cost at a reasonable interest rate.

TO SETTLE CLAIMS

Disposal of all hanger claims and disputes growing out of construction program and limiting the activities of the board to completing the construction of vessels now under way and the sale of ships completed.

When all ships are sold, to super-

WARRANT IS ISSUED

IN CAMP FIRE CASE.

SACRAMENTO MAN CHARGED WITH CARELESSNESS THAT COST A FORTUNE.

(BY A. P. MONT WIRE.)

SACRAMENTO, June 13.—A warrant charging that he permitted a camp fire to escape and therefore caused damage estimated at \$25,000 was issued today against Ralph Francis of Sacramento. The complaint was sworn to by District Fire Warden Yost, who declares that Francis's carelessness resulted in a blaze last Sunday in Putah Canyon, Yolo county, which spread over several hundred acres, burned 200 acres of standing grain and destroyed buildings on the G. Griffin ranch. Large damage also was done on two other ranches, according to Yost, who was here from Winters to serve the warrant. The fire was not brought under control until yesterday. Two hundred men were called out to fight it.

MEMORIAL CAMPUS

FOR VICTIM OF WAR.

(EXCLUSIVE DISPATCH.)

CHICAGO, June 14.—George Alexander McKinnock, president of a large electric company, has given \$250,000 to be applied to building a downtown campus for Northwestern University.

It is known as "The Alexander McKinnock Memorial Campus" and is a memorial to George Alexander McKinnock, Jr., who was killed in action July 21, 1918, at Berry-Le-Roc, a few miles southwest of Bolson, France.

The official citation says that Young McKinnock showed noble disregard of self and devotion to duty by traveling the front lines for information necessary in connection with his work as intelligence officer, and while fearlessly performing this work he was killed.

FIVE BURNED TO DEATH.

(BY A. P. MONT WIRE.)

CALGARY (AP) June 13.—Mrs. A. J. Rutledge and her four children were burned to death last night in a fire which destroyed their home, eight miles southeast of Inglewood, Alta., according to officials here today.

H. C. L. CHASED TO LAIR.

Government Figures Show Just What Has Happened Since December, 1915.

(EXCLUSIVE DISPATCH.)

WASHINGTON, June 13.—Changes in the cost of living, all articles considered, were given out yesterday for twelve cities by the United States Department of Labor through the Bureau of Labor Statistics. The following table shows the changes for six cities from December, 1914, to May, 1921, inclusive, each figure being in comparison with the "normal" or before-the-war expenditures:

Items of Expenditure	Per Cent. Increase from Dec. 1914 to May 1921
Food	44.5
Clothing	22.8
Housing	18.1
Fuel and light	10.1
Transportation	1.8
Miscellaneous	1.4
Total	100.0

The following tables show the increase for six cities from December, 1917, to May, 1921, inclusive:

Items of Expenditure	Per Cent. Increase from Dec. 1917 to May 1921
Food	38.8
Clothing	22.8
Housing	18.1
Fuel and light	10.1
Transportation	1.8
Miscellaneous	1.4
Total	100.0

Notes: Asterisk (*) denotes decrease. The per cent decrease from June 1920, to May, 1921, may be summarized as follows:

City	Per Cent. Decrease
Boston	17.2
Buffalo	18.6
Denver	15.6
Indianapolis	17.5
Jacksonville, Fla.	14.2
Kansas City, Mo.	15.7
Memphis	13.5
Minneapolis	13.7
Mobile	17.5
Pittsburgh	14.4
Portland, Me.	17.1
Savannah	15.2

Government figures on Los Angeles are not yet available. The figure of the Merchants and Manufacturers' Association, recently printed in the Times, show, with proper allowance for housing fuel and light, that the corresponding per cent of decrease in this city for the same period—June, 1920, to May, 1921—is 20.93 per cent.

STOKES NOT TO TAKE STAND AS WITNESS.

DIVORCE SUIT EVIDENCE WILL BE GIVEN JUDGE MINUS HIS EXAMINATION.

(EXCLUSIVE DISPATCH.)

NEW YORK, June 13.—Announcement was made today by attorneys for Mr. and Mrs. W. E. D. Stokes that Mr. Stokes's suit for a divorce and his wife's counter-claim for a separation on the ground of cruelty will be submitted to Supreme Court Justice Finch without the testimony of Mr. Stokes. He was under a subpoena by his wife's attorney, when the trial was concluded in April and the defense insisted that he must take the witness stand in open court. Mr. Stokes was then ill with pleurisy and the request by his attorney that his testimony be taken at his bedside was refused. Mrs. Stokes returned to her home in Denver, and the willingness of defense to submit the case to the court without examining Mr. Stokes is said to be due to an agreement under which Mrs. Stokes's allegations of cruelty are to go to Justice Finch unadorned. The decision is expected in July.

TEXAS COMPANIES

REDUCE OIL PRICES.

PRAIRIE CUT OF 25 CENTS IS MET QUICKLY; STANDARD ALSO POSTS NOTICE.

(BY A. P. MONT WIRE.)

WICHITA FALLS (Tex.) June 13.—Reduction of 25 cents in crude oil, bringing the price to \$1, was announced today by the Gulf, Humble and the Sinclair companies, following a similar reduction by the Prairie company. Other large companies are expected to meet the cut.

SHREVEPORT (La.) June 13.—The Standard Oil Company today posted a reduction of 25 cents a barrel of all grades of oil from Louisiana crude oil except Caddo heavy and Arkansas, which remain at \$1 and 70 cents, respectively. The Gulf and Texas companies met the reduction and reduced Caddo heavy 25 cents.

Come Here

Thursday, Friday and Saturday

OF COURSE you are planning to visit the new home of the Citizens Trust and Savings Bank. Many thousands have already done so and expressed their deep admiration of its unusual and unique beauty. We urge you to make a particular effort to be present on Thursday, Friday or Saturday evening of this week, between the hours of 7:30 and 9 o'clock, that you may have the added pleasure of hearing the special concerts which we have arranged for your entertainment on those evenings. This bank is open as usual until 10 p.m., but we have planned an added note of congeniality and sociability for Thursday, Friday and Saturday evenings.

The congratulations which we have received from our many friends and clients have proven that the people of Los Angeles understand and appreciate the desire which we felt to make our new bank home something more than a formal place of business, as they appreciate our constant policy of making banking service something warmer and friendlier and more serviceable than that dictated by the demands of pure commercialism.

Program

For Thursday, Friday and Saturday Evenings

THURSDAY EVENING

Capriccio, Op. 18, No. 3..... Alessandro Longo
"The Heart's Country"..... Carpenter

HARVEY :: WELCOMED :: BY :: LONDON :: PILGRIMS.

Ambassador to Great Britain on First Public Appearance.

Ambassador Harvey and British Notables.

American Ambassador Col. George Harvey is here shown on his first public appearance in London after his appointment to the Court of St. James. The picture shows, from left to right: The Duke of York, Col. Harvey, the Duke of Connaught and the Prime Minister.

good will and the processes of reason cannot solve. We have no subtleties, no duplicity for measure, no soft words to conceal a purpose of self-aggrandizement at others' expense. The only method of diplomacy we know is that of candid discussion of the merits of problems. This, we think, is the way to prosper a cause believed to be just and we shall advise no other.

"The world is settling down, but it is not yet settled. The counsel of power and expediency still dominates, in which the serious problems left by the great war press for solution. This country seeks not an extension of territory in the struggle led to victory. Nor do we wish any exclusive advantages in the postwar world which as a result of the war have passed under new control. We simply ask that we shall not be excluded from equal privileges wherever our interests are affected. That seems to us to be a reasonable position."

PATRONAGE CONFABS HELD BY JOHNSON.

POLITICAL WHEELHORSES SLIP INTO CAPITAL TO CONFER WITH SENATOR.

(EXCLUSIVE DISPATCH.) WASHINGTON, June 15.—All of the California politicians, big and little, are apparently making pilgrimages to Washington to talk patronage matters over with Senator Johnson. Hardly a day passes without some one of the political wheelhorses appearing here for a conference more or less prolonged with Senator Johnson. Yesterday Frank Dougherty of Los Angeles came, and spent most of the afternoon with the senator and slipped out of Washington without a trace. Leo Youngworth and Louis Cole are due here Sunday for some political talks with Senator Johnson and, having made big medicine for forthcoming political activity, will go home and pass the prescription around among the rank and file of the Republicans in Southern California. The impression is given that the visit of these gentlemen is simply a personal call on the California men officially in Washington. Both Mr. Youngworth and Mr. Cole are attending the Shreve convention in Des Moines and will add Washington to the itinerary.

It is the supposition that they are coming to Washington to give the approval of the local Republicans to candidates for Federal patronage in Southern California and will name to get some action in the early part of the month. The more important offices where vacancies exist, it is the policy of the administration to let men to fill the more important offices where vacancies exist, to serve out their terms, and this course, if adhered to, will delay the final disposition of most of the patronage in the South.

Until the present time not much progress has been made in getting any agreement on the patronage in the South and it is assumed that these conferences will result in a definite statement which will be adhered to by the Senators from California after they have reached an agreement on the names of the men selected.

TESTIFY TO VALUE OF WATER RIGHTS.

LOS ANGELES WITNESSES AVER OWENS RIVER GORGE PROPERTY WORTH \$150,000.

(BY A. P. NIGHT WIRE.) SAN FRANCISCO, June 15.—Prof. W. F. Durand of Stanford University, a consulting engineer for the city of Los Angeles, testified today in Federal court that \$150,000 was his estimate of a fair market value for the Owens River gorge property the municipality is suing to condemn.

The property is owned by the Southern Sierras Power Company, which is resisting condemnation on the ground that the need of other Southern California towns, which it serves as great as that of Los Angeles for electric energy.

O. H. Ensign, another consulting engineer for the municipality, and R. F. Scattergood, head of the Los Angeles power and light department, estimated the market value of the property at \$150,000. Scattergood said the Mono Power Company, former owner of the water rights, offered through a third party late in 1919 to sell them for \$150,000.

The power company is not entitled to compensation for improvements made on the property after March 27, 1920, the date papers in the condemnation suit brought in Los Angeles, were served on it. The court ruled today. The company had a power plant under construction on the property on that date.

WILL CONSULT UNITED STATES.

No Renewal of Anglo-Jap Pact Unless Agreeable.

Harvey to be Kept Informed as to Progress.

Tripartite Pacific Entente May be Solution.

(BY CABLE-EXCLUSIVE DISPATCH.) LONDON, June 15.—America will be consulted before the Anglo-Japanese treaty is renewed and there will be no renewal unless the form is agreeable to the United States. This statement was made yesterday by one of the men who will have the most to do with running the imperial conference, which holds its first meeting in the Cabinet Room at 10 Downing Street, Monday.

Nothing has been decided as yet as to the form of consultation with the American authorities, but it is most likely that Ambassador Harvey will be kept informed of every move in the progress of the negotiations. The necessity for American agreement to the treaty is recognized not only by Prime Minister Lloyd George but by all the colonial premiers.

Prime Ministers Hughes of Australia, Manney of New Zealand and Smuts of South Africa have all declared publicly that if the treaty is renewed it must be agreeable to the United States. Premier Meighan of Canada, has not arrived, and has not declared himself, but it is understood he is of the same mind as the others.

GRATEFUL TO JAPS.

However, Australia and New Zealand feel they owe Japan a debt of gratitude for help extended in the great war and they are not anxious to throw that nation over. The opinion is gaining ground here that the true solution will be for a tripartite Pacific entente, composed of the United States, the British Empire and Japan, and it is hoped if the Yaps and California land problems are settled that America will come in to help keep peace for the world in the Pacific, perhaps allowing Japan to expand on the Asiatic continent.

COMPOSITORS RETURN FOLLOWING WALKOUT.

(BY A. P. NIGHT WIRE.) BOSTON, June 15.—Newspaper compositors, who walked out Monday night and Tuesday morning, voted tonight to return to work with no change in the wage scale and working conditions.

Compositors on morning newspapers, the publishers said, were returning tonight.

SUGAR COST LOWEST IN YEARS.

(BY A. P. DAY WIRE.) NEW YORK, June 15.—Refined sugar went below the 8-cent level today for the first time in more than five years when the Federal Sugar Refining Company quoted five cents and a half.

PORTER OF PENNSYLVANIA PROTESTS TO SECRETARY OF NAVY DENBY.

(EXCLUSIVE DISPATCH.) WASHINGTON, June 15.—Representative Porter of Pennsylvania in his official capacity as chairman of the House Foreign Affairs Committee today protested to Secretary of the Navy Denby against Admiral Sims' anti-Irish speech.

He told the secretary that while he felt the Congress should take no action in the controversy, he looked to the Navy Department to take effective measures to silence the admiral's outbursts.

Porter made the point that Admiral Sims' views as expressed in his recent London speech, were doubly obnoxious because of the fact that the admiral is head of the Naval War College. He contended that any official holding such views was unfit to direct the instruction of naval officers.

ONTARIO MAN HEADS WORLD ROTARY CLUBS.

(BY CABLE AND ASSOCIATED PRESS.) EDINBURGH (Scotland), June 15.—Dr. Crawford C. McCulloch of Port William, Ont., was today unanimously elected president of the International Association of Rotary Clubs, now in annual session here, for the ensuing year.

There were represented at the session 669 clubs from the United States, 133 from Canada, 133 from Great Britain and Ireland, five from Cuba, three from South America and one from India.

BRITISH COLUMBIA DOESN'T WANT JAPS.

URGES RESTRICTION CLAUSE IN THE ANGLO-JAP PACT IF TREATY RENEWED.

(BY A. P. NIGHT WIRE.) VICTORIA (B. C.), June 15.—The provincial government, through Premier John Oliver, has cabled Premier Arthur Meighan of Canada, who is in London, urging that any renewal of the Anglo-Japanese treaty preserve to Canada the right to restrict Japanese immigration. It became known today. The existing treaty does not provide the right to make such restriction.

Data showing to what extent Japanese and Chinese are engaged in agriculture and horticulture in the province has been collected by E. Barrow, Minister of Agriculture, and forwarded to the Canadian minister in London.

SHIPPING BOARD TO MAKE PACT PUBLIC.

STEAMSHIP OWNERS SAID TO HAVE URGED REFUSAL TO SIGN AGREEMENT.

(BY A. P. NIGHT WIRE.) WASHINGTON, June 15.—After an all-day conference between the Shipping Board and representatives of the American Steamship Owners' Association, at which the latter were said to have urged the board to refuse to enter into an agreement with the marine engineers for ending the marine strike, announcement was made by the board the agreement will be made public tomorrow.

No announcement was made as to whether the private owners had finally decided to join the Shipping Board in accepting the agreement, but it was assumed that they had not committed themselves as a meeting of the association was called for tomorrow in New York to discuss the situation.

It is expected that agreements between the Shipping Board and other marine workers' unions will be negotiated at once along the general lines of the agreement with the engineers.

RETAIL SHOE MEN GIVE THEIR ALIBI.

WANT PUBLIC TO KNOW THEY ARE NOT RESPONSIBLE FOR PRICES.

(BY A. P. NIGHT WIRE.) SAN FRANCISCO, June 15.—The retail shoe dealers are doing all in their power to show the general public that they are not responsible for the present shoe prices and will continue their campaign of education. Earl C. Logan of Chicago, western editor of the Boot and Shoe Record of Boston, told the third annual convention of the California Retail Shoe Dealers' Association here today.

"There has been considerable misunderstanding regarding shoe prices, which we are trying our hardest to overcome," he said.

Charles E. Daly, a Fresno dealer, also spoke, and Lou Brayton of Sacramento, conducted an open forum of questions relating to the trade.

BROTHER OF GREEK KING GETS COMMAND.

(BY CABLE AND ASSOCIATED PRESS.) SMYRNA, June 15.—Prince Andrew, brother of King Constantine, has been given command of the Twelfth Infantry Division of the Greek Army and will go to the front.

CONSTANTINOPLE, June 14.—The Allied high command has authorized the Greek fleet to operate from Gallipoli at the southern end of the Sea of Marmora, up through the Bosphorus and along the Black Sea to Batum, on the Georgian coast.

MME. CURIE IS GIVEN DEGREE AT CHICAGO.

NORTHWESTERN UNIVERSITY PAYS TRIBUTE TO DISCOVERER OF RADIUM.

(EXCLUSIVE DISPATCH.) CHICAGO, June 15.—Mrs. Curie at the sixty-third convocation of Northwestern University today received the degree of doctor of science. Tributes to the eminent French woman, calling her the "discoverer of radium, foremost woman of science" and a "devoted mother," were paid by Prof. Winifred Lee Lewis, who aided in conferring the 131 degrees today.

Reports of an anonymous telephone call threatening the life of Mrs. Curie furnished an unwelcome interlude to the visit of the distinguished scientist. The report was that a woman called the home of Prof. Lewis, where Mrs. Curie is visiting, and when told that Mrs. Curie could not come to the phone, said: "Then Mrs. Curie cannot live."

Police are investigating, but believe that the unknown caller is a fanatic.

ADMIRAL SIMS' SPEECH RILES CONGRESSMEN.

(EXCLUSIVE DISPATCH.) WASHINGTON, June 15.—Representative Porter of Pennsylvania in his official capacity as chairman of the House Foreign Affairs Committee today protested to Secretary of the Navy Denby against Admiral Sims' anti-Irish speech.

He told the secretary that while he felt the Congress should take no action in the controversy, he looked to the Navy Department to take effective measures to silence the admiral's outbursts.

How, When and Where.

These questions come to about Ninety Percent of adults at some time in life in regard to Correcting their Eye Sight. Improper Vision may cause Headaches, Nervousness, and Various Ailments.

The Proper Time to look after the Eyes is when You first notice any Trouble. Many defects of Vision may be overcome Early and give you Eye Comfort for the Future Years.

Have an Oculist's examination. Do not worry about the glasses. It is Properly ground Lenses that gives Eye Comfort. Before these Lenses can be ground it is Essential to Properly Examine the Eyes. The Lenses with which you can see the Best are not Necessarily for you. They even may strain the Eyes. It is overcoming this Eye Strain that requires Skill, Ability, Experience and Knowledge. That is what I am offering You.

After examining your eyes, if you like, I will look after the grinding of the Lenses, if any are needed, for the size, shape and mounting and see that they are Properly Adjusted so they will look Well and be Comfortable and above all give you Good Vision.

Let always try to be reasonable in my charges. No drops used. It may save you delay if you make an appointment.

DAILY TRADE TALK.

Business Situation; Our Sweet Tooth; Oil, Bonds and Budgets.

BY CHAPIN HALL.

Local trade conditions are good, according to J. A. Graves, president of the Farmers' and Merchants' National Bank in his monthly financial letter, which will be out today. Retailers report active business although there has been a slight fall-off in sales. Wholesalers are not complaining. Manufacturing industries are well employed, and new industries are being constantly started here. With the rest of the country bank clearings show a falling off, as the result of a decline in commodity prices. Travel all day from one dealer to another and quotations do not vary.

Wages of all classes of labor engaged in building are extremely high. These conditions make the first cost of any structure now being erected years ago. The new buildings, at much higher than the cost of any building erected here four or five years ago, are being erected. When rents again drop, as they will when supply equals or exceeds the demand. But, if immigration to Los Angeles continues at its present rate, that condition is likely to be long delayed.

There will be no real permanent revival in business, or stability in the commercial world, the letter concludes, until the liquidation of labor is completed, the cost of raw materials reduced, and the cost of production reaches a lower plane than now exists.

RETAIL TRADE.

The following summary of the reports from six representative department stores in Los Angeles, covering their business for the month of May, 1931, was made public yesterday by John Perrin, chairman of the board and Federal Reserve agent, Federal Reserve Bank of San Francisco.

Percentage increase of net sales during corresponding period last year: 8.5% for May, 1931, compared with net sales of 1930. Percentage increase of net sales during corresponding period last year: 2.9% for May, 1931, compared with net sales of 1930. Percentage decrease of net sales during corresponding period last year: 0.4% for May, 1931, compared with net sales of 1930. Percentage increase of net sales during corresponding period last year: 0.4% for May, 1931, compared with net sales of 1930. Percentage increase of net sales during corresponding period last year: 0.4% for May, 1931, compared with net sales of 1930.

OUR SWEET TOOTH.

Sugar consumption in the United States will make a new high record in the fiscal year ending with this month. The quantity imported from foreign countries, says a statement by the National City Bank of New York, was greater in the ten months of the preceding year, which was the highest in the history of the country. The domestic production of the year was bigger than ever before and exportation only about one-half that of the corresponding ten months of the preceding year. The official figures will show the average per capita consumption around 100 pounds against 91 1/2 pounds in the fiscal year 1930, the former high record year, 42 pounds in 1919, and 39 pounds in 1914, which was the high record pre-war year.

MEXICAN PETROLEUM.

Reports of salt water entering a number of the wells of the Mexican Petroleum Corporation caused a sharp decline in the stock yesterday when it dropped from a previous

day's high of 135 to a close at 114. Building is more active throughout New England. Lumber and building materials generally have come down and labor in the building trades now is being paid 90 cents an hour.

RIG VAN CAMP ISSUE. E. H. Rollins & Sons and Stephens & Co. are underwriters of a new issue of \$2,000,000 Van Camp Packing Company, Inc., twenty-year issue, 8 percent gold bonds, to be sold to the public at 98 and interest, yielding 8.16 percent.

The Van Camp Packing Company, Inc., was recently organized under the laws of Virginia, to succeed the Van Camp Packing Company, and to acquire the property and assets of the Louisville Food Products Company. The Van Camp business was established in 1881, and has since that time attained a national distribution of its products, which are handled by more than 95,000 dealers in the United States.

Security for these bonds is afforded by a first mortgage on all of the fixed assets of the company, including fourteen plants, and by a pledge of 99 percent of all the common stock of the Van Camp Packing Company, the merchandising organization. The fixed assets of the company have an appraised valuation of more than \$4,000,000, while the total net assets, including good will, are valued at more than \$5,000,000. Earnings for the four years commencing in 1918 amounted to 4 3/4 times the annual interest charges on these bonds. On account of substantial inventory adjustments, the business for 1928 was not profitable. Although gross sales for that year were in excess of \$27,000,000. At the present, lower production costs, and with greatly increased volume of business, it is expected that the company will show considerably larger profits in the future.

Through the establishment of a sinking fund, the entire issue will be retired before maturity. It is estimated, these bonds being called at 107 1/2. Local participants include Stevens, Page and Sterling, and Frick, Martin & Co.

NEW GULF SERVICE.

The Los Angeles office of Norton, Lilly & Co., local agents for the Methman Lines, received a telegram yesterday, telling of the clearing from Galveston for Los Angeles, of the Aniston City, first of the new steamers on the new Gulf service to clear for the Pacific ports.

The Aniston City is a new 16,400-ton steel, oil burner, and carries a miscellaneous cargo, among which are 1600 tons of pipes and steel plates for this city. She is due to arrive at this port in ten days. After discharging she will make the northern ports, returning about the middle of July for her return cargo, which is expected to include a considerable quantity of citrus fruits for the Gulf ports.

This sailing is the inauguration of the direct service from Los Angeles to the Gulf of Mexico, and is of great practical interest to the shippers who are leaning toward the canal route as the main channel for long hauls from this coast to Gulf and eastern points. Mobile, New Orleans and Galveston are the ports of call.

LOS ANGELES STOCKS.

The market continued weak yesterday, about the only exception to the rule being Tom Reed mining, which moved up four and one-half points to a close at 74 cents. In the oil Delaware Union was steady around 20.00 and California Union sold down to 12.00. Industrials were soft, California Edison selling at 91 1/2 and both Goodyear preferred and Globe Oil Grain and Milling at 50.00. General Petroleum sold off to 99.00. Bonds were in light volume and without material price change.

GOODYEAR PRODUCTION.

Denial is made of reports that the company's schedule has been cut because of decreased demand. At the main plant in Akron production is being maintained at the rate of 17,000 tires a day. An official of the company is quoted as saying that there is every indication of a big increase in dealers' business, automobiles have greatly stimulated sales.

(Continued on Tenth Page.)

EXCLUSIVE DISPATCH.

BOSTON (Mass.) June 15.—Building is more active throughout New England. Lumber and building materials generally have come down and labor in the building trades now is being paid 90 cents an hour. The building trades now are running close to capacity and supplies of woolsen cloth at a low ebb. Department stores report women buyers are moving more slowly than in increasing volume and making their own clothes rather than pay for them. Cotton goods are uncertain with good spot demand in certain lines, but little forward business being booked. Shoe factories in this vicinity are operating at half-capacity or less.

FORT WORTH (Tex.) June 15.—Trade with Mexico is increasing rapidly throughout the Southwest. Texas cattle raisers are being called on to supply cattle to restock the Northern Mexico ranges, depleted by the Texas and Southwestern great Mexican-bound movement of cattle has begun. Texas jobbers, as far north as Dallas and Fort Worth, are finding increased trade from across the border the all-cash line most sought being women's wear.

PORTLAND (Me.) June 15.—The supply of spruce logs from Maine woods is the smallest in fifty years. Lumber men and river men coming into mill points on the Maine waterways are commenting on the shortage and the possible effect it will have on the lumber market.

NET LOSSES ARE MADE IN ALL GRAINS.

Heaviness and Low Prices
Feature Markets—Cash
Wheat Falls.

(EXCLUSIVE DISPATCH.)

CHICAGO, June 15.—Heaviness and lower prices featured the grain markets. Bad crop reports and rainy weather, with floods in Kansas and Nebraska, and a further decline in cash wheat premiums were offset by local selling and liquidation, and while the close was at a fair level from the inside, prices were not as low as \$1.40 on wheat, \$1.40 to \$1.45 on corn, \$1.40 to \$1.45 on oats and \$1.40 to \$1.45 on rye.

BLACK RUT REPORT.

Black rut reports from the interior wheat in Kansas and Nebraska are not being actively received, but the market is not as low as \$1.40 on wheat, \$1.40 to \$1.45 on corn, \$1.40 to \$1.45 on oats and \$1.40 to \$1.45 on rye.

RAIN IN KANSAS.

There were reports of 2 to 3 inches of rain in Kansas, Nebraska and Oklahoma, but the market is not as low as \$1.40 on wheat, \$1.40 to \$1.45 on corn, \$1.40 to \$1.45 on oats and \$1.40 to \$1.45 on rye.

CORN UNDER PRESSURE.

Corn was under pressure from all classes of buyers, but the market is not as low as \$1.40 on wheat, \$1.40 to \$1.45 on corn, \$1.40 to \$1.45 on oats and \$1.40 to \$1.45 on rye.

DEFERRED FACTORS.

Deferring factors on corn came from the fact that the market is not as low as \$1.40 on wheat, \$1.40 to \$1.45 on corn, \$1.40 to \$1.45 on oats and \$1.40 to \$1.45 on rye.

WHEAT QUOTATIONS.

Wheat quotations are as follows: No. 1 hard, \$1.40; No. 2 hard, \$1.35; No. 3 hard, \$1.30; No. 4 hard, \$1.25; No. 5 hard, \$1.20; No. 6 hard, \$1.15; No. 7 hard, \$1.10; No. 8 hard, \$1.05; No. 9 hard, \$1.00; No. 10 hard, \$0.95; No. 11 hard, \$0.90; No. 12 hard, \$0.85; No. 13 hard, \$0.80; No. 14 hard, \$0.75; No. 15 hard, \$0.70; No. 16 hard, \$0.65; No. 17 hard, \$0.60; No. 18 hard, \$0.55; No. 19 hard, \$0.50; No. 20 hard, \$0.45; No. 21 hard, \$0.40; No. 22 hard, \$0.35; No. 23 hard, \$0.30; No. 24 hard, \$0.25; No. 25 hard, \$0.20; No. 26 hard, \$0.15; No. 27 hard, \$0.10; No. 28 hard, \$0.05; No. 29 hard, \$0.00; No. 30 hard, \$0.00.

OPPOSE PROFITS AND SALES TAX.

National Credit Men to be Asked to Take Action.

Committee Favors Revenues from Incomes.

Henry M. Robinson Tells of International Problems.

(SPECIAL REPORT)

SAN FRANCISCO, June 10.—The National Association of Credit Men will be asked in its annual convention here tomorrow to adopt a resolution placing it on record as opposed to both the excess profits tax and the tax on general sales.

The report that effect is to be presented by Roy G. Elliott of Chicago, chairman of the committee on Federal Taxation. In it the committee demands the repeal of the excess profits tax and declares its opposition to the adoption of any form of general sales or turnover taxes.

FAVOR INCOME TAX.

In lieu of these taxes, the committee proposed that the Association of Credit Men adopt a resolution reaffirming its belief that income taxation "should be the cornerstone of our Federal system of taxation."

The committee recommended that the income tax be levied only on the income of individuals and not on corporations, as such.

It, however, individuals permit their earnings from corporations to accumulate in the hands of the business organizations and thus attempt to evade the individual income tax, the committee recommended that a tax should be imposed on the undistributed earnings of the corporations.

The resolution puts the committee on record as heartily in accord with the recommendations of Secretary of the Treasury Mellon, that the issue of tax-free securities should be restricted.

In support of the resolution the committee on Federal Taxation argued that the excess profits tax is discriminatory.

American business and that a sales or turnover tax would be an inequitable tax on business. It could not be shifted. If the business interest was successful in shifting the sales tax entirely on to the consumers, the committee said, this would violate the principle of taxation in accordance with ability to pay.

ANGELENO BANKER SPEAKS.

Speaking before the credit men today, Henry M. Robinson, president of the First National Bank of Los Angeles and of the Los Angeles Trust and Savings Bank, outlined the problems faced by the United States as a creditor nation.

Robinson, who is recognized as one of the foremost authorities on international finance, brought to the convention the results of his study of the economic conditions of the United States and of the problems faced by the United States as a creditor nation.

Robinson said in part: "The materials necessary for carrying on the war were largely furnished by economies in consumption throughout the world and by the speeding up of production. To pay for these materials, loans, both internal and external, were floated, and the goods used in Europe, both during and since the war, a large part came from the products of the United States."

"Due to their inability to return our goods or to render us service, Europe has sent us enough gold to bring our accounts with her into balance by one-half of the total supply of the world, and transferred credits to us and the debt is now paid."

"This extraordinary readjustment, which has left America the outstanding creditor nation of the world, has, whether we like it or not, forced us into an international relationship which never before existed."

"Economic conditions have forced us into economic entanglements and since political movements have been set on foot, we are faced with the problem of how to maintain a reasonable prosperity, we are most anxious to give employment to our people and to use all of our facilities of production. Neither can be done unless we can dispose of our excess products, for the nations with which we trade can pay for what they get only by what we take from them, and the amount we take must at least be equal to what we sell, or the buying power of the debtor nation drops. Even a continuance of an equal exchange of goods makes no provision for the payment of the loans which we have already made."

"In so far as our imports are less than our exports, some method of establishing a balance must be found, for we cannot long continue the present practice of making a constant current account deficit."

"Current account is unwise, both from a national and from an international standpoint, and we are discussing, without going forward very fast, the creation of the

Foreign Trade Financing Corporation, through which long-term credits may be established.

PERMANENT INVESTMENT.

"But neither current loaning nor the proposed financing corporation will completely solve the problem, and this is due to the inevitable conclusion that we must make permanent investment abroad, in the securities of the nations with whom we trade, or in the securities of their people, and to the conclusion that these investments must continue to be made, at least until such a time as reports are made as to a more nearly even basis."

"If we invest our money abroad and with this investment aid in the building up of the productivity of the debtor nations, there will be no need for foreign debt cancellation or for the readjustment suggested by the resourceful Mr. Keynes and the equally resourceful Andre Tardieu."

"If we are the partners of other nations in the building up of the productivity of the investment of our surplus gold abroad, the suspicions of international bankers, and the conclusion that these investments must continue to be made, at least until such a time as reports are made as to a more nearly even basis."

"If we invest our money abroad and with this investment aid in the building up of the productivity of the debtor nations, there will be no need for foreign debt cancellation or for the readjustment suggested by the resourceful Mr. Keynes and the equally resourceful Andre Tardieu."

"If we are the partners of other nations in the building up of the productivity of the investment of our surplus gold abroad, the suspicions of international bankers, and the conclusion that these investments must continue to be made, at least until such a time as reports are made as to a more nearly even basis."

"If we invest our money abroad and with this investment aid in the building up of the productivity of the debtor nations, there will be no need for foreign debt cancellation or for the readjustment suggested by the resourceful Mr. Keynes and the equally resourceful Andre Tardieu."

FIRST TO TAKE OATH OF OFFICE.

New Member of Board of Education Sworn In.

Mayor-Elect Cryer Holds Several Conferences.

More of Campaign Expense Accounts Filed.

C. E. Seaman, who was returned as a member of the Board of Education at the recent city election, was sworn in yesterday at the City Hall, being the first of the newly elected officials to take the oath of office.

While Mayor-elect Cryer may decide to be sworn in just before noon on Monday, July 1, it is expected that between now and that time the new Councilmen and remaining members of the Board of Education will present themselves at the City Hall and take the oath. The first meeting of the new Council will be held on Tuesday morning, July 2, and the first action will be the election of Ralph L. Griswell as president.

Since Mr. Cryer's return to the city early this week from a brief vacation has held a number of conferences but has made no announcement as to possibilities of appointments under his administration. His friends declare his mind is open concerning the men he is to select for office.

BUTLER MENTIONED.

The name of former Chief of Police John L. Butler for appointment to succeed Lyle Pendegast as head of the police department in the Cryer administration has been frequently mentioned, but without authority from Mr. Cryer. The suggestion has been made to the Mayor-elect that he select as Police Chief some former service man who has had experience as an officer, but Mr. Cryer has made no statement of his views in the matter.

It is expected that the members of the Fire and Police Commissions will tender their resignations to Mr. Cryer and that he will appoint new commissioners. Under the charter all appointments except those of the Mayor's secretary, Chief of Police and Health Commissioner require confirmation by the City Council. Health Commissioner Powers has been so long undisturbed in his office that the fact had been forgotten at the City Hall that he was one of the few municipal posts which was under the entire control of the Mayor. Mr. Cryer is expected to make no change in this position.

DISCUSS HARBOR BOARD.

Mr. Cryer has held a number of conferences relative to the make-up of the new Board of Harbor Commissioners of three members, which he will appoint soon after taking office. The chairmanship of the board is one of the most important placed at the disposal of the new Mayor.

The Los Angeles Harbor district wants one of the places given to some leading resident of that section of the city. Additional election expense schedules filed yesterday included those of Robert W. Anderson, Socialist candidate for the Board of Education, who says he spent \$11.50 during his campaign; C. E. Seaman, Board of Education candidate, \$49.75; and former Councilman Frank H. True, \$57.

CHURCHMAN TO ADDRESS GRADUATES.

Bishop Moreland to Talk at Marlborough School's Exercises Today.

Completing its thirty-second year, the Marlborough school will present diplomas to forty-three graduates this afternoon. The exercises are to be held in the patio of the school at 4:30 p.m. and the address to the graduates is to be made by Right Rev. W. H. Moreland, D. D., bishop of Sacramento. This will be the first year in the history of the school that Mrs. Mary Caswell, the principal, has not delivered the address, but owing to her recent illness she will only be able to present the diplomas.

Miss Charlotte Lovelock of Riverside will be awarded the school honor for courtesy; Miss Catherine Cannon, Los Angeles, the honor for best every day English; and Miss Orine Bouden, Los Angeles, the honor for best spelling.

A trio composed of Oscar Selling, violin; Axel Simonsen, cello; and Homer Grunn, piano, will play "Tschakalowsky's" "Barcarolle" and "Au Bord d'un Ruisseau" by Beethoven. A violin solo by Oscar Selling will be "Ave Maria," Schubert.

THOSE TO RECEIVE DIPLOMAS ARE:

Harriet Eugene Andrews, Frances Josephine Antiga, Marien Baker, Agnes Helena Barnard, Cornelia Baum, Dorris Braly, Bertha Beatrice Bray, Catherine Minerva Cheney, Blanche Rachel Condy, Eleanor Harriet Connell, Roberta Clarkson Crutcher, Dorothy Harriet Daniels, Theresa Amelia Ediger, Dorothy Louise Francis, Alice Cruz Freeman, Bernice Goodloe, Marie Edna Hagarty, Mary Elizabeth Hay, Florence Eleanor Herron, Gretchen Kayser, Dorothy Keefe, Mary Elizabeth King, Louise Louise Kuetta, Elmyr McVay, Hortense McLaughlin, Angela Grace Patterson, Margaret White Powers, Katherine Reynolds, Marion Roads, Rose Leselle Skinner, Adele Dawson Smith, Mary Maud Stacy, Louise Steinmiller, Adelaide Brower Stewart, Jeannette Stradthoff, Ruth Bully, Elizabeth Taylor, Lucia Frances Tolner, Lane Violette Uterback, Ethel Waddell, Ann Wichmann, Nellie Marian Wood, Dorothy Ida Yerna.

TO MAKE NO CHANGE.

Venice City Policies May be Continued Despite Resignation.

Little or no change of municipal policy will follow the resignation of A. E. Cole, chairman of the Venice Board of Trustees, at their meeting Monday night, according to those in close touch with the situation. In fact, a local politician who has followed events at the beach town, voiced the opinion yesterday that resignations in Venice have been of such regular occurrence in the past that one more or less makes no difference.

It is said that Fred Church, principal owner of The Race through the Clouds, a Venice conception, will be appointed to the vacancy at a special meeting of the board to be held before the end of the week.

MANAGER PLAN MEN WINNERS.

Seven Elected to Council by Long Beach Voters.

Police Judge Race is Closest in Tuesday's Contest.

Largest Plurality Accorded ex-Chamber Head.

(LOCAL CORRESPONDENT.) LONG BEACH, June 18.—Final figures on the Long Beach election of Tuesday compiled today show that the seven drafted candidates for the new City Council under the managerial plan were victorious in each instance.

C. A. Buffum, until recently president of the Chamber of Commerce, received the largest plurality at the polls, and George Moore and M. H. Hays were the low men among the candidates for Councilmen. W. M. Welsh now safely Commissioner.

A trio composed of Oscar Selling, violin; Axel Simonsen, cello; and Homer Grunn, piano, will play "Tschakalowsky's" "Barcarolle" and "Au Bord d'un Ruisseau" by Beethoven. A violin solo by Oscar Selling will be "Ave Maria," Schubert.

THOSE TO RECEIVE DIPLOMAS ARE:

Harriet Eugene Andrews, Frances Josephine Antiga, Marien Baker, Agnes Helena Barnard, Cornelia Baum, Dorris Braly, Bertha Beatrice Bray, Catherine Minerva Cheney, Blanche Rachel Condy, Eleanor Harriet Connell, Roberta Clarkson Crutcher, Dorothy Harriet Daniels, Theresa Amelia Ediger, Dorothy Louise Francis, Alice Cruz Freeman, Bernice Goodloe, Marie Edna Hagarty, Mary Elizabeth Hay, Florence Eleanor Herron, Gretchen Kayser, Dorothy Keefe, Mary Elizabeth King, Louise Louise Kuetta, Elmyr McVay, Hortense McLaughlin, Angela Grace Patterson, Margaret White Powers, Katherine Reynolds, Marion Roads, Rose Leselle Skinner, Adele Dawson Smith, Mary Maud Stacy, Louise Steinmiller, Adelaide Brower Stewart, Jeannette Stradthoff, Ruth Bully, Elizabeth Taylor, Lucia Frances Tolner, Lane Violette Uterback, Ethel Waddell, Ann Wichmann, Nellie Marian Wood, Dorothy Ida Yerna.

Venice City Policies May be Continued Despite Resignation.

Little or no change of municipal policy will follow the resignation of A. E. Cole, chairman of the Venice Board of Trustees, at their meeting Monday night, according to those in close touch with the situation. In fact, a local politician who has followed events at the beach town, voiced the opinion yesterday that resignations in Venice have been of such regular occurrence in the past that one more or less makes no difference.

It is said that Fred Church, principal owner of The Race through the Clouds, a Venice conception, will be appointed to the vacancy at a special meeting of the board to be held before the end of the week.

The Second Day of Baby Week

The First Day was a Big one for His Royal Happiness—

He was investing in a "wardrobe"— But, being a very wise young person, he left some things for the other days of His Particular Week.

He knew that sooner or later he would find everything his heart desired—

The Second Day brings forth:

Sacques and Wrappies: Of fine Cashmere, some with touches of delicate hand work.

Baby will coo contentedly in one of these pretty things when breezes blow cool—

And he may have his choice of many styles and prices beginning at the low one of \$1.25.

Flannel Gertudes: They are long and warm, for they are made of Storknest and other fine grades of Flannel.

But they are moderately priced, nevertheless, beginning at \$1.75.

Blankets Reduced: Though days be sunny and warm, nights are cool—

Baby will never be the wiser, however, if he can snuggle down into a cozy Beacon Blanket.

There are both large and small Blankets, in pink or blue checks and figures, plain or bound—

They have been reduced to sell for Baby Week at \$1.00 to \$2.50.

Breakfast Room Sets

What did homes do before painted Breakfast Room Sets came in?

How did they obtain relief from the seriousness of strictly conventional furnishings?

One is glad that they have found the key to a lighter mood, and in such an attractive way—

Robinson's have Sets consisting of a Table and four Chairs decorated in beautiful color combinations. They are priced from \$59.75 to \$119.75.

So, whether one's home be a tiny bungalow or a big mansion, it may have its "sunniest" room.

Gate Leg Tables

25 Gate Leg Tables of solid mahogany! They are beautiful luxuries—

But they are marked at the very low price of \$39.75. SEVENTH FLOOR

New Sultana Cloth

Robinson's has just received a shipment of this summer Drapery Material.

Its charms are manifold—lightness, transparency and a silken sheen are three—

There are rose, blue and mulberry shades and two-toned effects that are lovely.

50 inches wide, it is priced most moderately at \$2.75 a yard.

SEVENTH FLOOR

Scarfs, \$3.00

For sheer, dainty frocks, it is a Scarf that Miss Summer Girl prefers.

Here are 50 odd Wool Scarfs, all priced at \$3.00 for Thursday.

They are of Brushed Wool, fringed at both ends and come in both striped and plain patterns. Colors are navy, brown and heather shades.

Advance Sale of Refrigerators

Almost here is the heat that will melt the butter and generally ruin the things you want for dinner—

But here, too, and ahead of that heat, are Refrigerators reduced!

There are two Groups:
\$17.50 with 30 lbs. Ice Capacity.
\$19.50 with 40 lbs. Ice Capacity.

These Refrigerators are substantially made of Selected Hardwood with a Golden Oak Finish.

They are White Enamel Lined so that you may easily see everything in them, and they are spotlessly clean.

Patent Drip Cups and Removable Wash Pipes make them the last word in Sanitation.

And insulation consisting of dead air space and non-conducting sheathing insures a low temperature with a minimum ice consumption.

Good appearance, though secondary in a Refrigerator, has been considered in the making of these.

The Trimmings are of Nickel Plate. The lids lift up and the fastenings are automatic.

Good Refrigerators that are good to look at and easy to buy!

They are priced at \$17.50 and \$19.50 for Thursday Selling.

BARNETT

POET NEEDS GUN FOR PROTECTION.

Writer of Free Verse Is Arrested; Tells Why He Carried Weapon.

Charged with carrying a concealed weapon, Alfred A. Collins, who told the police he was a writer of free verse, was arrested and locked in the City Jail late yesterday afternoon. He was taken at Eighth and Spring streets by Patrolman L. C. Kirk. At Central Police Station he declared that he applied for a license to carry a revolver some time ago, but the permit was refused. He declared he needed protection and, therefore, carried his weapon without a license. He was released on bail.

Collins, who is a well-known poet, was arrested at his home at 1000 S. Main street. He was taken to the City Jail at 1000 S. Main street.

ONE FARTHER, OTHER FASTER.

Hollywood's Idea of Ways to Give Better Service.

Word Tilts Mark Hearing of Our Traction Problem.

Los Angeles Railway Against "Service Duplication."

Declaring that the yellow line should run farther and the red line faster, residents of Hollywood last night made known to the State Railroad Commission their views on how to improve the car service of the Los Angeles Railway and the Pacific Electric.

The residents attended the night session at which was continued the inquiry, started in the afternoon, into the commission's headquarters in the Pacific Electric Building.

B. O. Edgerton, former president of the commission, yesterday one of the representatives of the Los Angeles Railway, expressed the opinion that the transportation problem here has resolved itself into a question of what sort of service the public is willing to pay for.

Hollywood residents favored extending the yellow line into Hollywood from three points.

Three propositions.

President Brundage said for the commission that three propositions suggest themselves as a way out of the present difficulties, viz., extension of the Vermont-avenue yellow line to Griffith Park, extension of the Western-avenue line from Santa Monica Boulevard to Hollywood Boulevard, and extension of the West Sixth street and Larchmont-Boulevard line along Vine street to Hollywood Boulevard.

The latter plan, it seemed, would benefit the motion picture industry most.

Many expressed the belief that if the Pacific Electric would run two-car trains on the Hollywood lines during the rush hours, considerable relief from present crowded conditions might be afforded.

The suggestion was frequently made that the commission establish a routing which would provide for a transfer from red cars to yellow cars at Santa Monica Boulevard and Western avenue. Both lines opposed this, insisting that the fare, which ever it might be, would be insufficient to compensate them for the haul.

QUESTIONS AUTHORITY.

An interesting question was raised by Mr. Edgerton yesterday afternoon when he said to Asst. City Atty. Mealy:

"You don't pretend that the commission could order the yellow line to extend its lines into Hollywood, do you?"

To this President Brundage of the commission replied:

"Mr. Edgerton, you don't pretend that the commission couldn't order such improvements, do you?"

The reply of Mr. Edgerton was to the effect that if the commission did so order, now that the yellow line is in financial difficulties, the order would be confiscatory.

Mr. Mealy said he thought that such authority would first rest with the Board of Public Utilities.

BIGGER CARS NEEDED.

Bruce Campbell, who has made a study of Hollywood car service for the commission, testified that Hill street is unable to handle more red cars to the north, and that bigger cars must be used for temporary relief, or a tunnel through the hill back of the Hill-street station must be dug to let other cars out onto the Edendale line, and over a cut-off to Sunset Boulevard, at a point beyond Echo Park avenue.

OPPOSED EXTENSION.

The Los Angeles Railway went on record as being radically opposed to the Hollywood extension proposition, branding it "duplication of service."

Hollywood citizens said they do not see how duplication can be charged where no service exists.

According to figures of the commission's engineers the red cars running to Hollywood carried 81,523 passengers in 1918 and 1,250,719 in the year ending March 31, 1921.

Chief Engineer Schaefer of the commission recommended that a tunnel to cost \$715,000 be dug from the Hill-street station to grade at Figueroa street, or that the tunnel be run under Figueroa street and brought to grade near First street and Lake Shore avenue. He suggested that fifty cars of larger capacity be obtained for Hollywood service, and that an auxiliary bus feeder be used in Hollywood to distribute passengers from the main red car line.

The hearing closed with Chief Engineer Osborne of the Board of Public Utilities recommending that the commission bring about an arrangement whereby city buses operating to and from Griffith Park shall meet the yellow line cars at First street and Vermont avenue, carrying passengers to and from the park, fares to be paid either on the buses or on the cars, and transfers to be recognized.

IMPRISONED, SHE SAYS.

Wife Asserts Spouse Locked Her in Bathroom for Three Days.

Mrs. Emma H. Fawcett, who charged her husband, Harry Fawcett, with cruelty, declared in Judge Walton J. Wood's court yesterday that he locked her in the bathroom, kept her three days without food and taunted her through the locked door.

She was granted a divorce.

WHY POSLAM HEALS SKINS SO QUICKLY

When your BODY is sick, the first thing your doctor orders is REST. And when your SKIN is sick, it too must rest before it can heal.

That is the way Poslam works. A very little spread over the irritated skin stops the itching, burning and smarting right away. Then the wonderfully healing medication in Poslam begins to work. With the irritation gone, the skin at rest, it is easy for Poslam to check the inflammation and clear away the eruption. Often eczema, rashes or other skin troubles disappear in a few days!

Poslam costs 50c. at any drug store. Poslam costs 50c. at any drug store. Poslam costs 50c. at any drug store.

Quarter-Million Cinema Theater Building Begun.

Construction of a motion picture theater to cost \$150,000 was started yesterday at Forty-sixth street and Western avenue by the Lilly Fletcher Company, contractors and builders.

The new photoplay edifice, which will be known as the Rivoli, is being built by A. L. Sanborn and L. A. Grant in conjunction with J. Leslie Swopa, John M. Young and Frank A. Grant of the Hollywood Theaters, Inc., and will seat 1000 people.

The Rivoli will mark a new departure, it is said, in residential district theaters and will embody all of the features which generally distinguish the big downtown picture palaces from the average suburban house.

Grecian architecture will be used throughout from the plans prepared by L. A. Smith, architect. The lot is 107 by 141 feet.

The contract calls for completion of the Rivoli by October 1, and the new house will be under the management of A. L. Sanborn and L. A. Grant, formerly owners of the La Salle Theater on Adams street near Western avenue.

MUST WRITE LAW TO SAVE FINE.

Corner-Cutter Who Says He Never Heard of Act Gets Novel Sentence.

To save himself from paying a fine of \$25 for cutting corners on the Valley Boulevard near San Gabriel, J. M. Hockmuth must write out in longhand all of Section 28-A of the State Motor Vehicle Act, Justice Baird ruled yesterday. The defendant asserted he had not heard of the law.

SCOUR RIVER BANKS FOR MISSING MAN.

FRENO, June 15.—Citizens of Sanger, led by Sheriff W. B. Jones and deputies, conducted a search today along the banks of the Kings River for Arch Brown, Sanger man, who has been missing since Sunday.

Letters to and from "Neddie Boy" made interesting reading at the trial of the divorce suit of Frederick G. Becker against Katherine Becker in Judge Walton J. Wood's court yesterday. The case was continued for further evidence.

"Dearest Katherine," Neddie Boy wrote, "why aren't you here? I am so hard but I would turn burglar for you." It was signed: "Your lonesome Neddie Boy."

Another letter read: "Dearest Sweetheart of Mine: I just had a session of silver gin fizzes, whiskey sour and chow mein, I feel fine, but, honey bunch, I wish you were here. I am eating my heart out for you. I want your dear arms around me. I like them because they are thin, not fat."

Her letter to Neddie Boy was in part: "Dear Neddie: Get a postoffice box and cute little key all for your own. I don't want people to know I am writing to you, for if I am going to make this matrimonial career come to a close, I want it done without a lot of evidence."

Ready to Turn Burglar for Her, Love Note Says.

OLIVE RECIPES ARE COMPILED.

Growers' Association Issues Book for Housewives.

Appetizing Menus Presented by California Experts.

Southland Ripe Product is High in Food Values.

As a means of still more firmly strengthening the California ripe olive as a menu attraction of high nutritive value, the California Olive Association has just issued a California Ripe Olive Recipe Book. The recipes contained in the book, issued in an edition of 100,000, were carefully prepared and tested in the laboratories of the University of Southern California, southern branch, by Misses Orabel Chilton and Maud D. Evans. Articles are included by Prof. Jaffa and Biolettini on the food value and history of the olive. California experts are worked out for each recipe and a supplementary list of balanced menus add value to the work.

LONG PRIZED.
"Man has prized the olive from times that antedate the oldest historical records," Prof. Biolettini writes. "Its cultivation by the Egyptians more than 4,000 years ago proves the length of its use to humanity, and the message brought to Noah by the dove illustrates the sentiment that it has always accompanied it. Prior to 1941 it was known to the American housewife principally by the oil and green pickles that reached her from abroad."

"Olive have flourished in California from their introduction by the Franciscan padres in 1769, but the growers failed in their first efforts to imitate the green pickled olives of Spain. This directed their attention to the more delicious ripe olives, successfully prepared from the start."

SCIENCE WISE.
"Unfortunately, the keeping properties of this wholesome form of the olive were uncertain. Few remained in good condition through the summer after reaching the eastern consumer. To enjoy this delicacy a trip to California was necessary."

"In 1901 an investigation by the agricultural experiment station at Berkeley demonstrated a method by which ripe olives could be canned and kept in perfect condition indefinitely and safely shipped to any part of the world. This method the growers of California to offer the consumer a product much superior to any that had been known from olives until then, and laid the foundation for a new industry."

"Since its beginning this industry has packed and sold something over one hundred and ninety million packages of ripe olives. The fact that as late as 1919 40 percent of this pack was consumed in California, shows clearly that the American housewife is still to a great extent unaware of the superiority of the ripe olive, both in flavor and food value."

"For thousands of years in the olive growing districts abroad the olive has been used as a staple food. The same high food value combined with a delicate nut-like flavor that has given rise to this general use abroad is to be found in the California canned olive."

The following are a few of the recipes contained in the book: **Macaroni and Olive** (1675 calories). Two cups macaroni broken into one-inch pieces, 1 tablespoon flour, 1 1/2 cup milk, 1 tablespoon fat, 1/2 spoon mustard, 1 teaspoon salt, 1/2 cup minced ripe olives, 1/2 cup chopped cheese, 1/2 cup cooked green peppers chopped, 2 tablespoons chopped pimiento, 1/2 cup buttered crumbs and pepper. Cook macaroni in boiling salted water until tender. Drain. Make a white sauce of the fat, flour, milk and seasoning. Add chopped pepper and cheese and cook slowly until cheese is melted. Put a layer of macaroni into a buttered baking dish, then a layer of cheese mixture and olives. Repeat until ingredients have all been used. Bake with buttered crumbs and bake in a moderate oven twenty minutes. One and one-fourth cup of raw rice in a cups boiling salt water.

Cheese and Olive Roast (1430 calories). Four cups stale bread crumbs, 8 cups tomatoes, 1/2 cup minced ripe olive, 1 cup cheese chopped, 1/2 cup finely chopped onions, 2 tablespoons olive oil, 1 teaspoon salt and pepper. Brown onion in oil. Add tomatoes and seasonings and cook ten minutes. Add cheese and cook slowly until cheese is melted. Put crumbs, tomato mixture and olives in layers into a buttered baking dish and bake in a moderate oven twenty minutes.

Fillings for Sandwiches. One cup minced ripe olive, 1 cup sliced celery, 1 cup chopped nut meats and seasoning. Mix ingredients and add sufficient boiled salad dressing to moisten. One cup minced ripe olive, 1/2 cup chopped nut meats and 1/2 cup salad dressing. Mix ingredients thoroughly before spreading on bread. One cup minced ripe olive, 1 cup shredded shrimp, mayonnaise to moisten and seasonings. Mix ingredients and spread on bread.

Stuffed Eggs. Six hard-cooked eggs, 1/2 cup minced ripe olive, French dressing, 1/2 teaspoon salt, 1/2 teaspoon mustard and pepper. Cut hard-cooked eggs into halves. Remove the yolks and mash them. Add olives and seasonings and sufficient French dressing to moisten. Refill the whites with the yolk mixture. Serve with French dressing in lettuce nest.

Stuffed Tomatoes. Six firm tomatoes, 1 cup finely cut celery, 1/2 cup minced ripe olive, 1/2 cup shredded shrimp, mayonnaise and seasonings. Peel tomatoes. Scoop out a small quantity of pulp from the center of each. Sprinkle the inside with salt, invert and let stand to chill. Mix celery, olives, shrimp and seasonings and fill tomatoes to moisten. Fill tomatoes with mixture. Garnish with mayonnaise. Serve on lettuce leaves.

GLOVE, HOSE AND CORSET PRICES LOWER

Three Articles of Women's Wear Cost Less Than They Did Last Year.

Glove prices have fallen here from 10 to 15 per cent in the past few months. The reason for this is the shortage of perfect goods of this sort. In the case of gloves, the reduction is approximately 40 per cent. In the case of the drop in the last case, no prediction as to future prices on French goods can be made, however, because of uncertainty regarding the new tariff.

A two-layer fabric glove, selling last year for \$3 may be bought now for \$1. A short silk glove costing \$3 last year is now worth \$2.25. In 18-button length gloves of both fabric and silk, the same proportion of reduction in true raw silk is higher than a short time ago, accounting for the lesser reduction in silk gloves.

In silk hose, except in the best grades, there is a reduction of from 15 per cent to 35 per cent. There is a shortage of perfect goods of this sort. In the case of socks, the reduction is approximately 40 per cent. In the case of the drop in the last case, no prediction as to future prices on French goods can be made, however, because of uncertainty regarding the new tariff.

In corsets of the better grades the reduction is approximately 10 per cent. In the case of the drop in the last case, no prediction as to future prices on French goods can be made, however, because of uncertainty regarding the new tariff.

SOCIETY.

BY VIRGINIA WOODS.

Wed in Bower of Blooms.
Miss Katherine Strickler and Alfred H. Wilcox were married yesterday morning at 10 o'clock in St. Agnes Church, with Father Truxan officiating and celebrating the nuptial mass.

Hundreds of pink gladioli and ferns with splashes of sapphire-colored delphinium, adding a Parisian touch, were on the altar. Tall cathedral candles illuminated the bower. The bride wore a French lingerie frock of sheer embroidery, Irish crochet and filet lace. Her long tulle veil was edged with rose point lace and fell from a crown of orange blossoms and lace. Her shower bouquet was fashioned from orchids, lilies of the valley and gardenia.

Promotion Day Frock.
(Copyright, Keystone View Company.) This garment is made of indestructible voile, trimmed in unique fashion by strips of ribbon, and is topped off with a long sash at the side.

THE NEW.

IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

Up-to-Date.

A bathing cap and bag of jade blue-green rubberized silk, swimming in hue of sumpstons, matching in suit satin. The suit has the new high throat finished with a collar of white embroidered linen. Organizing the bag and cap are arrow-shaped pieces of ivory kid. The terry cloth caps, which completes the perfect whole, shows ivory figures on a ground of jade and is lined with silk of ivory shade.

Exquisite fruit and flower pieces for sideboard and table in duotone art glass. Glowing yellow and marins blue flow from the center of a whole of opaque beauty in these compotes, baskets and candy jars.

Muffs—not the fragile illusions of shirred chiffon and pompadour, but solid and sturdy, made of the warmest of furs. Their vogue, which, it is predicted, will become a rage in the fall, is a consequence of the widespread fashion of wearing short sleeves.

Now is the Time to Buy:
The real chaise longue, cool to look at, light to handle, and, best of all, luxurious to relax in. Not in years have these delightful lounging chairs been purchasable at so advantageous a price as that of today.

The hiking suit of khaki, flannel, jersey or corduroy. Trim and shape it is with a box plaited, belted jacket worn over bloomers. The breeches of yesterday's mountain-climbing clothes have followed the old-fashioned skirt into the discard.

The chic housewife of checked gingham or soft-blued crepe with its crisp tie-back and picturesque patch pockets. A gown of dual personality, it is, in a word, a masterpiece of the case demand.

Mrs. Harding Sets a Fashion.
Sheathe herself against the slings and arrows of Washington climate by the brand of March climate intended, but if you've been there during that month, you'll find in a word, that very becomingly set a fashion. So the furriers let us, in explaining the new, combine the two varieties of concrete wealth, are being seen in ever increasing numbers on the Atlantic Coast.

The first lady, in the tonnage of trade, "create a new style of preference. The demand for the velvet-soft, crinkled black skin of the baby lamb, which has been the winter had been merely a style with lukewarm following, took suddenly in deference to the taste of madame le presidente, the virile sweep of a fashion, outdistancing the vogue for mole and marten and mink and even stretching a point beyond gray squirrel, which, up then, had reigned supreme in the affections of women with a nice discrimination in fads.

New line of Croesus of dealers who handle priceless pelts with a carelessness that is the envy of the rest of the world. These new fashions, dressed in fashion by being born fur-bearing animals, are busy writing down orders for broad coats, long tail, collared, almost to the tip of the collar, with chinchilla and lined with brilliant broadness in shades of flamingo, tangerine and jade predominates.

A Fantasy in Furs.
To have even accurate glimpses of the up-to-date in furs is to get a glimpse of the future. The fur will be worn next winter—not to mention the present summer is to realize that, after all, the denizens of the frigid clime of the reindeer and the iceberg have several thicknesses, colloquially speaking, on top of the hairy territory of tulle and sleeveless gowns.

Thinking of sitting down to one's matutinal dish of whole blubber and glass of melted snow in a breakfast coat of Alaska, one is glad to see in its itself provocative of a thrill. And how interestingly curious it would seem to suit Willie's fox ear tab well down and tucked cosily under the sable robes of his dog sled and to find that the fur has been studied the history of Dr. Cook and his famous fad!

With this as a furry commencement for the day, imagine the grandeur of sensation of the inner clothes consciousness when one doled up for afternoon bridge tea at 4 p.m. say, the affair being a small and early in a straight-line frock of ermine, topped by a coat of Tuxedo-cut in Kamechka squirrel and completed, as to costume, by a close-fitting toque of beaver, with trimmings of mole!

Vogues in Furs.
Barring the latitude, it isn't such a hashish—whatever the Arctic substitute inducer of pipe dreams may be—fantasia as it sounds. There are all to be seen in the fur of Kamchatka gray squirrel; the beaver toque; and, if not the breakfast coat of mink-edged Alaskan seal, at least a cavalier-like garment in this deep-lined skin of surpassing richness that any woman with a finger tip to feel she would gladly wear at breakfast time or any other time.

Too, there are ready for inspection, a marvelous mandarin coat of a wrap in mole and marten, lined with satin in color the blue-green of the sunlit sea. And another, a regal garment of ermine which, in its reverse side, shows facines of olive and blue brocade. There are, as well, stoles and scarfs in fox-blue, gray, black and red, with the first named in the ascendancy in a housekeeper meets a neighbor and says: "guess what I bought today cheaper than last year."—(Belltown) (Mc.) Star.

Though I did not see it, I heard from the lips of the furrier of a wedding garment, worn by a recent New York bride, where the court train swept out in lengths of ermine, edged in sable.

I have heard too, that all far-seeing women who would wear a fur in future show a portion of w-om when they buy now. Never, say the dealers, have skins been available in such quantity, of such quality or at prices of such modesty, as at the present moment.

Dame Fashion Asserts That:
A smart hat is a combination of duvety and straw in brilliant shades of gray be the Pantier. Next winter's suits will be trimmed with slyx shirred to imitate broadtail.

Sports skirts are made of loosely woven woolen fabrics, and are fringed along the hem. Costs of soft materials are trimmed with macrame lace, dyed to match material.

A dress of polka-dotted navy chiffon is trimmed with circular appliques of white crepe. A cloth tailor shows a diagonal waist fastening and draped skirt with heavily embroidered mesh.

An attractive motorcoat is in a red and black plaid, and has a collar which may be worn as a hood. A winter suit of tan cloth has collar and cuffs of seal. Some suit fallers are large and upstanding.

A navy crepe dress is "cross stitched in white and ends of the crepe are run through white ivory rings.

A novel sports combination is a maroon duvety jacket worn with a skirt of tan and dark red mixture frayed into fringe and upstanding. An afternoon dress of soft, short-plush of a deep blonde shade is trimmed with wide bandings of squirrel in white and brown.

Care and Responsibility.

Responsibility attached to the preparing of a remedy for infants and children is undoubtedly greater than that imposed upon the manufacturer of remedies for adults. It is well to observe that Castoria is prepared today, as it has been for 40 years, under the personal supervision of Mr. Chas. H. Fletcher. It has makers of imitations and substitutes at stake? What are their motives? To whom are they answerable? They spring up today, scatter their wares broadcast, and disappear tomorrow. Would each mother see the painstaking care with which the prescription for Castoria is prepared: could they read the innumerable testimonials from mothers, they would never listen to the subtle pleadings and false arguments which would offer an imitation of, or substitute for, the tried and true Castoria.

Children Cry For

Fletcher's CASTORIA

A Word About Truth.

"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.

Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrup was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA.

WIRELESS TELEGRAPHY FOR AMATEURS

(Note: This is the first of a series of articles on the subject of wireless telegraphy, written by Mr. W. W. Wells, retired manufacturer of wire and cable, and a cable engineer of the United States Navy. The great series being made in this way, the articles make the articles of timely interest.)

SIMPLE TELEGRAPHY AND HOW IT WORKS.

All signaling at a distance necessitates the use of three distinct parts as shown in Figure A.

No. 1.—The device which produces the signal and otherwise known as the electric dynamo which produces the electricity.

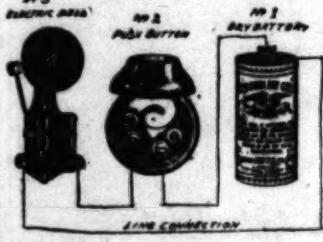

FIG. A.

No. 2.—That which carries the signal and otherwise known as the line or electric wire, shown by the connections through the push button.

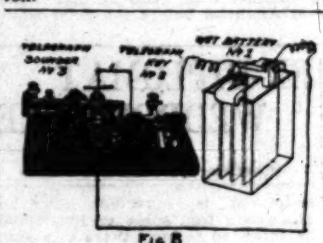

FIG. B.

No. 3.—That which receives the signal.

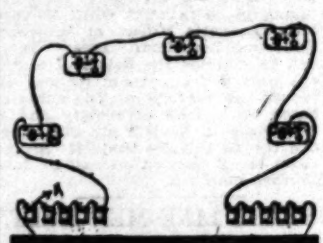

FIG. C.

These three essentials we may call respectively (1) the sender, (2) the line and (3) the receiver. If for example shown in Figure A, the push button No. 1 is pressed down making a complete circuit or electrical connection the bell will ring, hence No. 1 produces the signal (or electric current) No. 2, the line carries the signal and No. 3 receives the signal. In other words the electric bell is the receiver of the signal sent out by the person operating the push button.

As long as the push button is pressed down making a continuous circuit the receiving signal remains continuous.

THE MORSE TELEGRAPH.

The ordinary telegraph of today as used by all telegraph companies for the transmission of messages is achieved by such an apparatus as shown in Figure B, in which No. 1 is the battery which produces an electric current of electricity. No. 2 the telegraph key which, when pressed down makes a complete line connection and conducts that current flowing from the battery or dynamo from one point to another, and No. 3 the telegraph sounder, an electro-magnetic apparatus, which clicks whenever the key is pressed and the current flows through the line, no matter how far away the telegraph key may be situated.

By the foregoing you will note that in the ordinary telegraph a line must be carried from one point to another, as shown in Figure C, which enables any operator to receive and send signals over any distance, over one wire. Figure C shows the telegraph apparatus connected over several points or cities and only one line used for the transmission of the signals, the line being made by a ground connection known as the return circuit. The ground connection is usually made to a water or gas pipe.

WRITES FOR HERO.

Body of Los Angeles Soldier to be Laid to Rest Next Sunday.

The body of Private Abe Kavin, victim of a German sniper and later of a bomb attack on the field hospital where he was receiving treatment, will be laid to rest Sunday afternoon with full military honors by members of the Ninety-first Division at the Home of Peace Cemetery. Private Kavin was the brother of Samuel Kavin, auditor and credit manager of Deamond's.

WINS HEAVY DAMAGES IN STREET CAR SUIT.

C. E. Comer was awarded a verdict of \$6000 in Judge Pro Tem John L. Fleming's court yesterday in a suit against the Los Angeles Railway. Mr. Comer testified that when his automobile came in contact with a live trolley wire, he was thrown from the machine and suffered from shock.

Bullock's Bullock's closes Saturday at 1 o'clock every Saturday throughout the year.

What a Little Price!

—200 Wool Plaid and Silk Skirts for Women at \$8.75—
—60 Baronette Satin Skirts for Misses at \$8.75.
—In at very important sale—at Bullock's—Friday.

Briefly, that is the story. But there are facts, which go to make this the important occasion that it should be, which should not escape your attention. First—these Skirts were secured by Bullock's after careful comparisons to emphasize leadership and reflect Bullock's value at a much higher price than \$8.75. Now they have been given this new price—and should be much more interesting as a result—

—Do you know that Bullock's is specializing on—

Hand-Made Blouses

—and that they offer many very attractive, smart ideas for wearing with separate skirts—

—And that they strike the most interesting note of Economy in the realm of Blouses which Bullock's has been able to find?

If you do not know, you should. And you should make it a point while at Bullock's, tomorrow, sharing in the value offering of skirts at \$8.75, to investigate, and learn just how much you are concerned in these Hand-made Blouses upon which Bullock's is specializing at \$3.95 and other prices.

—Tomorrow—Friday— at Bullock's—Third Floor.

—Take, for example, the Women's Wool Skirts at \$8.75—Among them are actually Summer Hairline Stripes in white as well as French Worsted Plaids—pleated in both box and knife pleating—and colored according to mode's recent dictates. Notice how well tailored they are, and how smartly they fit—notice, if you please (but how can you miss it?) that they are not ordinary wool skirts to sell at \$8.75—tomorrow.

—And then take the Women's Skirts of Fan-ta-si at \$8.75—and the Skirts of Poplin at \$8.75—and of Baronette Satin at \$8.75—notice the novel belts and pockets and the fine quality of materials—Notice the style of them, above all—and recall how much higher priced one usually sees such fine skirts—If you know, you will not want to stay away—tomorrow. There is a wide range of good colors—at \$8.75.

—If you are a miss or woman of slight and slender figure—this event invites you to save, also—

—Baronette Satin Skirts for you at an unusually low price of \$8.75 each. In white, rose, grey and yellow—fancy be! and pocket trims, with buttons—just as attractive for misses at \$8.75 as the others are for women at \$8.75—Friday.

—Bullock's is enthusiastic about this offering—Bullock's wants you to be enthusiastic about it, too—so that you may be enthusiastic about Bullock's for Value—and Bullock's for Style—and Bullock's for Service—because Bullock's is trying ardently to make this one store more and more expressive of these as the days go by.

—Friday—tomorrow—remember—this important Sale of 260 Silk and Wool Suits at \$8.75—at Bullock's—Third Floor.

The June Underwear

—Two big Shipments of Petticoats will be out for the first time tomorrow to give new impetus to activities in Bullock's June Underwear Exploitation—First in value and goodness will be—

100 Satin Petticoats at \$3.95

—They have never been shown before, remember. They will probably be as much of a surprise to you at \$3.95 as they were to Bullock's to sell at \$3.95. You will find them to be somewhat of a revelation in Petticoat values—heavy quality satin, twin needle seams, double panel and machine scalloped lower edge—some of the features giving them superiority. White washable, placketless; elastic at waistline. Lengths 30 to 36. 100 of them—out the first time Friday, at \$3.95 each.

100 "Fruit o' the Loom" Petticoats, \$1.95

—Out Friday for the first time, too. A new value and a good one. Made on hand power machines with reinforced seams. Hemstitching and hand crocheted scallops at bottom. Draw string top, and the best quality "Fruit o' the Loom" Muslin. Lengths 30 to 36. 100 of them in the Petticoat event of Bullock's June Underwear Exploitation—tomorrow, Friday, at \$1.95.

—Petticoats of Middy Twill at \$1.95—with machine scallops are also very good values.

—Petticoats of Indian Head at \$1.45 with machine scallops will be more interesting to many women.

—Petticoats of Irish Poplin at \$4.50 will be out, too, and they themselves are emphatic about value.

—Petticoats of Cotton Satin at \$4.95 with double panels and hand crocheted edge are more than ordinarily attractive.

—Some Sateen and Venetian Petticoats at \$1.95 are double to the hips and represent attractive Bullock Value.

—NOTE—A few lace trimmed Petticoats will be cleared away at the reduced price of \$1.00 each.

—Tomorrow—Friday—the Petticoat Opportunity Day of Bullock's June Underwear—making Petticoats particularly interpretative of Bullock's Purpose of value-giving in this great month-long event—at Bullock's Women's Underwear Section—Fourth Floor.

FLOOD CONTROL NOW EFFECTIVE.

Supervisors, Engineers Make Tour of Inspection.

Report Channel is Ready to Face Future Floods.

County Chairman is Satisfied With the Results.

SUPERVISOR R. F. McLELLAN, Chairman Flood Control District.

A tour of inspection by a party comprising Supervisor R. F. McLELLAN, in charge of the work of the Los Angeles County Flood Control District; Maj. Frederick B. Downing, District Engineer of the United States; D. E. Hughes, of the United States Engineer's office; George W. Jones, Road Commissioner of Los Angeles county; James W. Reagan, flood control engineer; and C. F. Guthridge, president of the United Dredging Company, over the entire length of the flood control channel through the city of Long Beach shows the channel to be in complete shape and ready to face any of the future floods that may visit Southern California.

The completion of this immense flood control channel, over four miles in length and extending from the Cerritos trestle, Pacific Electric Long Beach line to the ocean, and having a width of 120 feet, ends the long fight commenced several years ago by the Federal government and the Supervisors of Los Angeles county for the protection of the harbors of the city of Los Angeles and the city of Long Beach from the destructive siltting by the flood waters of the Los Angeles and San Gabriel rivers, and the members of the party of inspection (all of whom have played an important part in achieving the great accomplishment) expressed their gratification in the successful conclusion of the great enterprise.

WOMEN WHO CANNOT WORK

Read Mrs. Corley's Letter and Benefit by Her Experience.

Edmund, S. C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicines but got no relief. I saw your medicine advertised in a little book, and I had not taken two bottles of Lydia E. Pinkham's Vegetable Compound before I could see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. I can print this letter if you wish."—ELIZABETH C. CORLEY, care of A. P. Corley, Edmund, S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how our hearts ache for the weak and sickly women struggling with their daily round of household duties, with backaches, headaches, nervousness and almost every movement brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince such women that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

Babies Should Be Bathed Six Times a Day.

But not in water. "If babies were ducks," writes a well-known nurse, "I would urge Mothers to sponge them thoroughly at almost every waking interval—and as it is I advise at least one soap and water bath a day—but nature never intended humans to be aquatic animals."

"Still the salts and acids in baby's perspiration make it necessary for Mother to constantly cleanse, purify and sweeten the delicate skin."

"So, I have devised a dry bath—that can be used half a dozen times a day without the slightest danger of injury and with assured beneficial results."

"I sprinkle my baby with Johnson's Baby Powder under the arms, in the groin and between the soft folds of flesh. Johnson's Baby Powder is more than a mere talcum. It contains beneficial antiseptics which cleanse and purify."

Your druggist sells Johnson's. Advertisement.

Some Results of Flood Control Work in Los Angeles County.

For years the waters of the Los Angeles and San Gabriel rivers, loaded with silt, had flowed into the harbors of Los Angeles and Long Beach without check or hindrance, seriously interfering with navigation and rendering necessary the expenditure of immense sums of money in the dredging of these harbors. In particular, the harbor of the city of Long Beach, constructed by the municipal authorities of that city at great expense, was, during the flood year of 1914 and the years following, rendered practically useless, if not entirely destroyed from the standpoint of navigation. In addition, vast areas of land lying between Los Angeles Harbor and the Long Beach Harbor, including a large part of the industrial district of the city of Long Beach, had been subjected to the destructive annual overflow of storm waters. The damage worked by these floods, coupled with the menace of future floods, greatly impaired the value of this industrial property, retarding its growth and seriously affecting the development of the industrial district of the city of Long Beach.

Recognizing that the development of the harbor in question was not only vital to the interests of the city of Long Beach and the city of Los Angeles, but was of paramount importance to the entire Southwest, the Federal government and the Supervisors of Los Angeles county, through the Board of Supervisors of Los Angeles county, entered into an agreement whereby the government agreed to construct a channel and the Supervisors agreed to intercept and carry all of these flood waters directly into the Pacific Ocean and the Flood Control District agreed to procure the necessary rights of way, to maintain the channel when completed, construct all necessary bridges over the channel, and to assume all liability for damages incident to the work. Pursuant to this agreement, the Flood Control District entered upon the purchase and condemnation of the lands necessary for the construction of the channel, and in this connection has expended over \$1,000,000 in the payment of compensation to the owners of lands and improvements required for this enterprise.

Congress appropriated \$1,880,000 for the work of construction, and on Oct. 25, 1913, a contract was awarded to the United Dredging and Docking Company, of Los Angeles, to construct the channel. The work has been prosecuted continuously and vigorously, and has resulted in the expenditure on the part of the government of approximately \$1,100,000, and consists of two parallel lines of levees, the top of the rock revetments and excavated to a varying depth in between so as to give a clear, direct and swift passage for these flood waters into the sea.

The actual channel itself is 400 feet in width and it has a uniform depth of approximately fourteen feet. The width of the levees on either side is sixty feet and provides a space which is to be surfaced and devoted to highway purposes. Three bridges have been built to span this channel. One at Ocean Boulevard in the city of Long Beach, which is so constructed as to provide for travel by vehicle and foot passengers and also for the use of the Salt Lake Railroad. Another bridge spans Seventh street and is so constructed as to accommodate the Southern Pacific and Pacific Electric railroads as well as vehicular traffic. The third bridge spans the channel at Anaheim Road, the principal artery between the two harbors. Where the waters empty into the ocean, parallel lines of breakwater have been constructed to carry the water some distance into the sea.

SATISFIED WITH RESULT.

The channel construction work has been under the supervision of Maj. Frederick B. Downing, District Engineer of the United States, assisted by D. E. Hughes, a well-known engineer connected with the government service.

The success of this project is largely due to the efforts of these men. Maj. Downing and his assistant, Mr. Hughes, have worked unceasingly and untiringly and with rare ability in the prosecution of this work. We feel that the credit for this achievement should be theirs. During the many anxious years that this work has been pending they have met and solved every problem with rare skill, and have endeavored themselves to all with whom they have come in contact by their tact, patience and courtesy.

TESTIMONY AT ODDS.

Postpone Hearing of Man Accused of Accepting Bets on Races.

Because of a conflict in the testimony of police officers in the hearing of Robert Sherwood, accused of accepting bets on horse races at Tijuana, the case was continued yesterday by Justice Hinchey until today. Dep. Dist. Atty. Fitts advised the jury that the case was continued because of a conflict in the testimony of police officers in the hearing of Robert Sherwood, accused of accepting bets on horse races at Tijuana, the case was continued yesterday by Justice Hinchey until today.

Dep. Dist. Atty. Fitts advised the jury that the case was continued because of a conflict in the testimony of police officers in the hearing of Robert Sherwood, accused of accepting bets on horse races at Tijuana, the case was continued yesterday by Justice Hinchey until today.

LAD SHOVED UNDER TRUCK BADLY HURT.

Boy Scout's Ankle is Torn Apart When He is Pushed Beneath Crushing Wheels.

Terribly injured yesterday when he was pushed by a boy companion from a rock on which he was standing beside the road in San Antonio Canyon, causing him to fall beneath the wheels of a heavy passing truck, Fred Swain, 5-year-old son of Mr. and Mrs. Loren J. Swain of South Fern avenue, Ontario, is in the San Antonio Hospital in a serious condition.

The boy was a member of a party of Junior Boy Scouts on a hike in the canyon under the direction of Scout Master R. C. Stone. At the approach of the truck the boys scrambled to rocks at the side of the road to allow it to pass and the Swain boy, inadvertently shoved by a companion, fell beneath its wheels.

In charge of Miss Ellis Tipton, an Ontario teacher, who was in the canyon with a party of school girls, the boy was rushed in a motor car to the office of Dr. Calvert L. Emmons and thence to the hospital. An examination showed the bones of one foot broken and the bones of the ankle literally torn apart and other parts of his body, as well as other hurts. Dr. Emmons hopes to be able to save the foot, but it probably will be a cripple for life.

FLOOD HELD AT BAY ON THE BORDER

Belief in Imperial Valley is that Waters Will Not Overflow Ockerson Levee.

(EXCLUSIVE DISPATCH)

CALIFORNIA, June 11.—Editors of the Imperial Irrigation District to hold back the flood waters of the Colorado River are being concentrated on the Ockerson levee between mile No. 2 1/2 and mile No. 7 1/4, where the levee is badly saturated and where water is standing not far from the top of the dyke. Mileage along the Ockerson is figured from its junction with the Salt, which is ten miles below the international boundary, making the danger zone from thirteen and one-half to seventeen and one-half miles south of the California-Mexico boundary.

Aside from the increased discharge, which was 105,000 second-feet at Yuma today, conditions are about the same as they have been for the past week. The gauge at mile No. 4 1/4 today stood at 97.7 feet, and at the irrigation district weir below Rockwood Gate, the gauge showed 116.5 feet, these figures being based on the levee.

At the former point the flood water is running rapidly against the levee, the velocity of the current being between five and ten miles an hour. A similar condition exists at mile No. 7 1/4, where the main body of water stands well above the levee from the top of the dyke in one or two places in the threatened zone, the time on the levee tracks being touched once or twice recently, but it is believed that the water will not top the levee, ample preparation for raising the barrier with sand bags has been made.

Urge Bond Sale to Start Work at the Harbor.

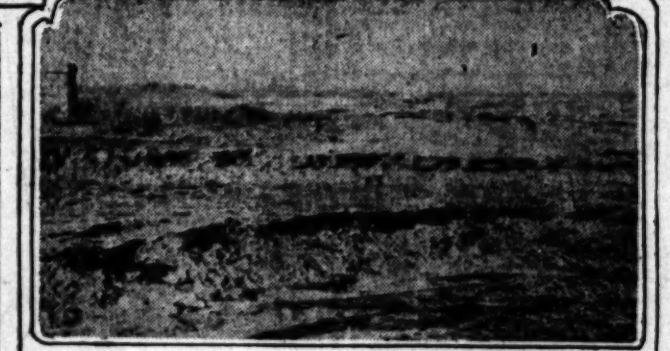

In order to have the money on hand to start work at once on the Terminal Island steel drawbridge and highway connecting the proposed municipal docks with the industrial section of Los Angeles, the Board of Harbor Commissioners yesterday asked the City Council to authorize the sale of \$1,500,000 of 1919 harbor improvement bonds. It is estimated the drawbridge over the Long Beach channel will cost about \$700,000 and the two and one-half-mile highway will cost at least \$500,000.

LAY PLANS FOR FAIR.

Committee Discuss Program for San Fernando Exposition.

Committee members recently appointed by the San Fernando Valley Fair and market organization met yesterday at the Chamber of Commerce Building in San Fernando and discussed plans for the agricultural, horticultural and circulatory exhibits at the fair to be held in San Fernando, September 13 to 18. The fair is to be held on the represented and a schedule of worth-while premiums in all departments was arranged.

DREAM STREET is far more poetic than PINE—ask your Contribution to Chicago.

Los Angeles High-water Control Channel to the Sea. The upper pictures show the present channel with flood at high water. The lower view shows conditions at Anaheim before the flood waters were harnessed.

SAYS CONNER BOOKS WERE SQUARE DAILY

Assistant Cashier Avers Drafts O.K.'d by Pasadena Institution's Officials.

It was brought out yesterday in the hearing of the case of the government against W. J. Conner and Edward J. Pryle, charged with misappropriation of the funds of the National Bank and Trust Company of Pasadena, that in all the transactions of Mr. Conner with the bank up to Aug. 10 the close of not a single day showed Mr. Conner indebted to the bank. It also was shown that Mr. Pryle continually was calling Mr. Conner to task for the condition of the account.

Such was the burden of the testimony of A. B. Palmer, assistant cashier. He said Mr. Conner was the only customer of the bank that squared his accounts each day. Mr. Palmer said other employees as well as Mr. Pryle had "O.K.'d" Mr. Conner's drafts.

H. C. Holt, not teller, said Mr. Pryle had told him he expected the Conner account to be settled soon.

NOTE WINS DIVORCE.

"I am sorry, but I could not live with you any more," Kolborn Christianson wrote his wife, Anna Christianson. On the strength of this letter and other evidence, Judge Summerfield granted Mrs. Christianson a divorce yesterday. The testimony was that Mr. Christianson lived with his wife three days before he entered the army and three days after he came back from the war.

MAYOR-ELECT'S WIFE ACTS.

Large Freighter Launched at Harbor.

Mrs. George E. Cryer and Launching Party.

The others in the picture, left to right, are: President Fred L. Baker and Vice-President Eric M. Leaf of the Los Angeles Shipbuilding and Dry Dock Company and Mayor-elect Cryer.

MRS. GEORGE E. CRYER, wife of Los Angeles Mayor-elect, was the sponsor at the launching of the freight steamer West Greylock at the Los Angeles Shipbuilding and Dry Dock Company's plant at 5:47 p.m. yesterday.

The West Greylock is the thirty-third steamer to be launched at the Los Angeles shipyard, and is the third of five 11,000-ton freighters now being built there. Two other vessels of her type remain on the ways and are to be launched within the next two months.

At a given signal Mrs. Cryer crashed a bottle of champagne against the bow of the ship and the vessel slid easily into the west basin. The shipyard band played during the occasion.

EX-DIPLOMAT WEDDED HERE.

(Continued from First Page.)

home, it is expected, since Mr. Thompson told some of his friends he intended to stay there this summer. It is expected the couple will then return to Los Angeles to make their home.

Miss Garber is the third bride of Mr. Thompson, his first marriage taking place in 1912 when he wed Miss Jeannette Miller at Chicago. Following her death several years ago he married the beautiful southern woman from whom he was divorced two years ago. The suit was based on ground of cruelty and it was declared that she put into practice the philosophy that it is no harm for a married woman to love another man.

STAGE LINE MEN MEET.

Rules Governing Operation on State Highway Are Discussed.

Rules governing the operation of motor stages on the highways of the State were discussed last evening at a meeting of operators and officials of the Motor Transit Company at the King Edward Hotel here.

Operators of stages between points from Bakersfield to San Diego and from Los Angeles to Big Bear joined in the discussion. Consideration of other travelers on the highways, attention to the comfort of passengers, careful operation of rolling stock and other subjects of interest to the drivers were taken up.

MAGNINS GO EAST.

Rabbi Edgar F. Magnin of Congregation Beth-El, accompanied by Mrs. Magnin and their son, Henry David, left yesterday for Ohio and Michigan. Rabbi Magnin will be away until the end of August.

FREE BOOKLET ABOUT BAKING.

Agriculture Department Issues Volume, Giving Pastory Secrets.

Can you make good pie crust?—Southern corn bread?—Boston brown bread? The Department of Agriculture has published a booklet telling how to make practically all pastries. Our Washington bureau will secure a copy of this free government publication for anyone who sends 2 cents in stamp for return postage. In filling out coupon print name and address or be sure to write plainly. Do not send to Times' Los Angeles office.

Send to J. H. Hinkle, Director, The Los Angeles Times, Information Bureau, Washington, D. C.

I enclose herewith two cents in stamp for return postage on free copy of booklet, "Baking in the Home."

Fear Shortage in Income Tax Revenues Here.

The barrier fall on the June collection of income taxes at the office of Internal Revenue Collector Carter last midnight.

Ordinarily, the sum total of the June collections would be around \$7,000,000, and Collector Carter was sanguine last night that that amount would be reached, but there was wide leeway for a contrary opinion. In this, in common with every other internal revenue district in the country, there is a feared shortage of the income tax collections, due to a variety of causes, but all growing out of the troubles arising from the stabilizing of commercial conditions.

It will be some days before the total collections for the second quarter of the year are known.

More than the usual number of taxpayers are using the mails this year to forward their dues, and this means delay in the totaling of the figures.

FLOOD CONTROL NOW EFFECTIVE.

Supervisors, Engineers Make Tour of Inspection.

Report Channel is Ready to Face Future Floods.

County Chairman is Satisfied With the Results.

SUPERVISOR R. F. McCLALLAN, Chairman Flood Control District.

A tour of inspection by a party comprising Supervisor R. F. McCLALLAN, in charge of the work of the Los Angeles County Flood Control district; Maj. Frederick Downing, District Engineer of the United States; D. E. Hughes, of the United States Engineer's office; George W. Jones, Road Commissioner of Los Angeles county; James W. Reagan, flood control engineer, and C. F. Guthrie, president of the United Dredging Company, gave the entire length of the flood control channel through the city of Long Beach shows the channel to be in complete shape and ready to face any of the future floods that may visit Southern California.

The completion of this immense flood control channel, over four miles in length and extending from the Cerritos levee, Pacific Electric Long Beach line to the ocean, and having a width of 725 feet, ends the long fight commenced several years ago by the Federal government and the Supervisors of Los Angeles county for the protection of the harbors of the city of Los Angeles and the city of Long Beach from the destructive silt by the flood waters of the Los Angeles and San Gabriel rivers, and the members of the party of inspection (all of whom have played an important part in achieving this great accomplishment) expressed their gratification in the successful conclusion of the great enterprise.

DAMAGE IN THE PAST.
For years the waters of the Los Angeles and San Gabriel rivers, loaded with silt, had flowed into the harbors of Los Angeles and Long Beach without check or hindrance, seriously interfering with navigation and rendering necessary the expenditure of immense sums of money in the dredging of these harbors. In particular, the harbor of the city of Long Beach, constructed by the municipal authorities of that city at great expense during the flood year of 1914 and the years following, rendered practically useless, if not entirely destroyed from the standpoint of navigation. In addition, vast areas of land lying between Los Angeles Harbor and the Long Beach Harbor, including a large part of the industrial district of the city of Long Beach, had been subjected to the destructive annual overflow of storm waters. The damage worked by these floods, coupled with the menace of future floods, greatly impaired the value of this industrial property, retarding its growth and seriously affecting the development of the industrial district of the city of Long Beach.

THE WORK UNDERTAKEN.
Recognizing that the development of the harbors in question was not only vital to the interests of the city of Long Beach and the city of Los Angeles, but was of paramount importance to the entire Southwest, the Federal government and the Los Angeles County Flood Control district, through the Board of Supervisors of Los Angeles county, entered into an agreement whereby the government agreed to construct a channel and a diverting dike so as to intercept and carry all of these waters directly into the Pacific Ocean and the Flood Control district agreed to procure the necessary rights of way, to maintain the channel when completed, construct all necessary bridges over the channel, and to assume all liability for damages incident to the work. Pursuant to this agreement, the Flood Control District entered upon the purchase of the lands necessary for the construction of the channel, and in this connection has expended over \$1,600,000 in the payment of compensation to the owners of lands and improvements required for this enterprise.

Congress appropriated \$1,600,000 for the work of construction, and on Oct. 25, 1919, a contract was made with the United Dredging Company for the actual construction work of the channel. The work has been prosecuted continuously and vigorously and has required the expenditure on the part of the government of approximately \$1,600,000. It consists of two parallel lines of levees protected by the rock revetments and excavated to a varying depth in between so as to give a clear, direct and swift passage for these flood waters into the sea.

The actual channel itself is 600 feet in width and it has a uniform depth of approximately fourteen feet. The width of the levee on either side is sixty feet and provides a space which is to be surfaced and devoted to highway purposes. Three bridges have been built to span the channel. One at Ocean Boulevard in the city of Long Beach, which is so constructed as to provide for travel by vehicle and foot passengers and also for the use of the Salt Lake Railroad. Another bridge spans Seventh street and is so constructed as to accommodate the Southern Pacific and Pacific Electric railroads as well as vehicular traffic. The third bridge spans the channel at Anaheim Road, the principal artery between the two harbors. Where the waters empty into the ocean, parallel lines of breakwaters have been constructed to carry the water some distance into the ocean.

SATISFIED WITH RESULT.
The channel construction work has been under the supervision of Maj. Frederick B. Downing, District Engineer of the United States, assisted by D. E. Hughes, a well-known engineer connected with the government service.

The success of this project is largely due to the efforts of these men. Maj. Downing and his assistant, Mr. Hughes, have worked unceasingly and untiringly and with rare ability in the prosecution of this work. We feel that the credit for this achievement should be theirs. During the many anxious years that this work has been pending they have met and solved every problem with rare skill, and have endeavored themselves to all with whom they have come in contact by their tact, patience and courtesy.

The completion of this work is a matter of great satisfaction to the Board of Supervisors. We are entirely satisfied with the result, and feel sure that the solution of this great flood problem will prove of incalculable benefit, not only to the people of the cities of Los Angeles and Long Beach, but to the people of Los Angeles county and the Southwest as well.

TESTIMONY AT ODDS.
Postpone Hearing of Man Accused of Accepting Bets on Races.

Because of a conflict in the testimony of Robert Sherwood, accused of accepting bets on horse races at Tijuana, the case was continued yesterday by Justice Hingshaw until today. Deputy District Attorney produced testimony indicating that on March 24 and 25, police officers of San Diego witnessed the race in question in Tijuana and two officers here placed the bets.

WOMEN WHO CANNOT WORK
Read Mrs. Corley's Letter and Benefit by Her Experience.

Edmund, S. C.—"I was run down with nervousness and female trouble and suffered every month. I was not able to do any work and tried a lot of medicines but got no relief. I saw your medicine advertised in a little book, and I had not taken two bottles when I felt better. I am now able to see it was helping me. I am keeping house now and am able to do all of my work. I cannot say enough for your medicine. It has done more for me than any doctor. You may print this letter if you wish."—EDMUND S. C. CORLEY, care of A. F. Corley, Edmund, S. C.

Ability to stand the strain of work is the privilege of the strong and healthy, but how many women suffer for the weak and slow women struggle with their daily rounds of household duties, with backaches, headaches, nervousness and almost every ailment brings a new pain. Why will not the mass of letters from women all over this country, which we have been publishing, convince each woman that Lydia E. Pinkham's Vegetable Compound will help them just as surely as it did Mrs. Corley?

Some Results of Flood Control Work in Los Angeles County.

Los Angeles High-water Control Channel to the Sea. The upper pictures show the present channel with flood at high water. The lower view shows conditions at Anaheim before the flood waters were harnessed.

LAD SHOVED UNDER TRUCK BADLY HURT.
Boy Scout's Ankle is Torn Apart When He is Pushed Beneath Crushing Wheels.

Terribly injured yesterday when he was pushed by a boy companion from a rock on which he was standing beside the road in San Antonio Canyon, causing him to fall beneath the wheels of a heavy passing truck, Fred Swain, 9-year-old son of Mr. and Mrs. Loren J. Swain of South Fern avenue, Ontario, is in the San Antonio Hospital in a serious condition.

The boy was a member of a party of Junior Boy Scouts on a hike in the canyon under the direction of Scout Master R. C. Stone. At the approach of the truck, the boys scrambled to rocks at the side of the road to avoid it. Swain and the Swain boy, inadvertently shoved by a companion, fell beneath its wheels.

In charge of Miss Ellis Tipton, an Ontario teacher, who was in the canyon with a party of school girls, the boy was rushed in a motor car to the office of Dr. Calvert L. Emmons and thence to the hospital. An examination showed the toes of one foot broken and the bones of the ankle literally torn apart and gravel ground between them, as well as other hurts. Dr. Emmons hopes to be able to save the footarring complications, but the boy will probably be a cripple for life.

FLOOD HELD AT BAY ON THE BORDER
Belief in Imperial Valley is that Waters Will Not Overflow Ockerson Levee.

(EXCLUSIVE DISPATCH)
CALEXICO, June 10.—Efforts of the Imperial Irrigation District to hold back the flood waters of the Colorado River are being concentrated on the Ockerson levee between mile No. 24 and mile No. 24, where the levee is badly saturated and where water is standing not far from the top of the dyke. Mileage along the Ockerson is figured from its junction with the Colorado River to the international boundary, making the danger zone from thirteen and one-half to seventeen and one-half miles south of the California-Mexico boundary.

Aside from the increased discharge, which was 105,000 second-feet at Tuma today, conditions are about the same as they have been for the past week. The gauge at mile No. 4 1/4 today stood at 27.7 feet, and at the irrigation district weir below Rockwood Gate, the gauge showed 114.6 feet, these figures being based on sea level.

At the former point the flood water is running rapidly against the levee, the velocity of the current being between five and ten miles an hour. A similar condition exists at mile No. 7 1/4, where the railroad tracks end, beyond which the water body of water stands well away from the levee. The water has reached the top of the dyke in two or three places in the threatened zone, the ties on the railroad tracks being touched once or twice recently, but it is believed that water will not top the levee, as ample preparation for raising the barrier with sand bags has been made.

Urge Bond Sale to Start Work at the Harbor.
In order to have the money on hand to start work at once on the Terminal Island steel drawbridge and highway connecting the proposed municipal docks with the industrial section of Los Angeles, the Board of Harbor Commissioners yesterday asked the City Council to authorize the sale of \$1,500,000 of 1919 harbor improvement bonds. It is estimated the drawbridge over the Long Beach Channel will cost about \$700,000 and the two and one-half-mile highway will cost at least \$800,000.

LAY PLANS FOR FAIR.
Committee Men Discuss Program for San Fernando Exposition.

Committee men recently appointed by the San Fernando Valley Fair and market organization met yesterday at the Chamber of Commerce Building in San Fernando and discussed plans for the agriculture, horticulture and agriculture exhibits at the fair to be held in San Fernando, September 12 to 18. Every town in the valley was represented and a schedule of worthwhile premiums in all departments was arranged.

EX-DIPLOMAT WEDDED HERE.
(Continued from First Page.)

home, it is expected, since Mr. Thompson told some of his friends he intended to stay there this summer. It is expected the couple will then return to Los Angeles to make their home.

Miss Garber is the third bride of Mr. Thompson, his first marriage taking place in 1912 when he wed Miss Jeannette Miller at Chicago. Following her death several years ago he married the beautiful southern woman from whom he was divorced two years ago. The suit was based on ground of cruelty and it was declared that she put into practice the philosophy that it is no harm for a married woman to love another man.

STAGE LINE MEN MEET.
Rules Governing Operation on State Highway Are Discussed.

Rules governing the operation of motor stages on the highways of the State were discussed last evening at a meeting of operators and officials of the Motor Transit Company at the King Edward Hotel here. Operators of stages between points from Bakersfield to San Diego and from Los Angeles to Big Bear joined in the discussion. Consideration of other subjects of interest to the drivers were taken up.

MAGNINS GO EAST.
Rabbi Edgar F. Magnin of Congregation B'nai B'rith, accompanied by Mrs. Magnin and their son, Henry David, left yesterday for Ohio and Michigan. Rabbi Magnin will be away until the end of August.

NOTE WINS DIVORCE.
"I am sorry, but I could not live with you any more," Kolbjorn Christanson wrote his wife, Anna Christanson. On the strength of this letter and other evidence, Judge Summerfield granted Mrs. Christanson a divorce yesterday. The testimony was that Mr. Christanson lived with his wife three days before he entered the Army and three days after he came back from the war.

MAYOR-ELECT'S WIFE ACTS.
Large Freighter Launched at Harbor.

Mrs. George E. Cryer and Launching Party. The others in the picture, left to right, are: President Fred L. Baker and Vice-President Erle M. Leaf of the Los Angeles Shipbuilding and Dry Dock Company and Mayor-elect Cryer.

Mrs. George E. Cryer, wife of Los Angeles Mayor-elect, was the sponsor at the launching of the freight steamer West Greylock at the Los Angeles Shipbuilding and Dry Dock Company's plant at 5:57 p.m. yesterday.

The West Greylock is the thirty-third ship to be launched at the Los Angeles shipyard, and is the third of five 11,000-ton freighters now being built there for the United States Navy. The other vessels of her type remain on the ways and are to be launched within the next two months.

At a given signal Mrs. Cryer crashed a bottle of champagne against the bow of the ship and the vessel slid easily into the west basin. The shipyard band played during the occasion.

Among the members of the launching party were Mr. and Mrs. Cryer, Mr. and Mrs. Sam Haskins, A. J. Frey, general manager of the Los Angeles Steamship Company, and the following officials of the Los Angeles Shipbuilding and Dry Dock Company: President Fred L. Baker, Vice-President Erle M. Leaf, Assistant General Manager James Reed, Comptroller V. H. Hedrick, Works Manager John Murray and Assistant Secretary F. P. Duncklee.

Commenting on the launching of the steamer West Greylock, and it is my hope that it will be able to launch the best interests of the harbor. The remarkable development of the Los Angeles Shipbuilding and Dry Dock Company's plant during the past two years reflects in itself what the future holds in store for the harbor and the city of Los Angeles.

FREE BOOKLET ABOUT BAKING.
Agriculture Department Issues Volume, Giving Pastry Secrets.

Can you make good pie crust?—Southern corn bread?—Boston brown bread? The Department of Agriculture has published a booklet telling how to make practically all pastries. Our Washington bureau will secure a copy of this free government publication for anyone who sends 2 cents in stamps for return postage. In filling out coupon print name and address or be sure to write plainly. Do not send to Times' Los Angeles office.

Frederic J. Haskins, Director, The Los Angeles Times, International Bazaar, Washington, D. C.

I enclose herewith two cents in stamps for return postage on the copy of booklet, "Baking in the Home."

Fear Shortage in Income Tax Revenues Here.
The barrier fell on the June collection of income taxes at the office of Internal Revenue Collector Carter last midnight.

Ordinarily, the sum total of the June collections would be around \$7,000,000, and Collector Carter was sanguine last night that that amount would be reached, but there was wide leeway for a contrary opinion. In this in common with every other internal revenue district in the country, there is a feared shortage of the income tax collections, due to a variety of causes, but all growing out of the troubles arising from the stabilizing of commercial conditions.

It will be some days before the total collections for the second quarter of the year are known.

More than the usual number of taxpayers are using the mails this year to forward their dues, and this means delay in the totaling of the figures.
